A Priceless Canadian Asset . . .

In this war-ridden world, the relations of Cana- 42-year-old Tommy spent 64 dians and Americans stand out as a hope for the fu- hours in the water after his ship ture. Nowhere is this better illustrated than in Prince was torpedoed. His chest still is Rupert.

Closer, better friends and neighbors than any him out at dawn each day sendother peoples on earth, we needed no Atlantic char-ing a racer through his paces. ters, no peace conferences or diplomatic red-tape to Billy Smith, Epsom trainer, is keep us together. All we ever needed was a free and attempting to have Tommy, open border to shuttle back and forth across.

This shuttling across the border, as Brooke Clax- Derby, take out a jockey licence. ton, M.P., says, in a recent Canada-West Indies Right now he's on sick leave magazine, "has woven ties of friendship which make and his future with the navy, clude civil accidents of all kinds our two peoples the best of good neighbors on this which he joined at the outbreak shrinking globe."

Two years ago nearly 14 million Americans entered Canada bringing us more United States funds than almost any one of our industries. As Mr. Clax- it, but the King registered his ton says, "even at that we still fell far short of our share of the total North American tourist business,' which estimates fix at about six billion dollars.

Profit and money is not the measure of value of the United States tourist trade. The good relations victory enriched the Royal cofbetween Canada and the United States as nations are based on the good relations between Canadians ed too much speed for the hot and Americans as people.

At present the tourist trade is a casualty of war. Travel is necessarily restricted.

Yet there is one thing nearly every Canadian can do and that is to keep in touch with relatives, staff which he hoped would friends and business acquaintances in the States.

As Mr. Claxton very rightly says-five factors sics. But Tipstaff, who went well draw American tourists to Canada: "country, people, in gallops, showed no inclination facilities, special interests, and publicity." Publicity announced after his second poor is nobody's monopoly. A letter, a greeting card, a showing that the colt would not message of good wishes from you to some friend in run again for the King. the States on appropriate occasions is a fine type of Canadian publicity.

You can't go to see your American friends—they cannot easily come to see you. Keep in touch with and the Dunkerque evacuation, Works plan to repair this sum-You can't go to see your American friends-they them by mail. It's no weakness to admit we value a had a winner at Newmarket mer 40,000 houses made uningood neighbor. We value them, not for their money, with his first runner, Response. habitable by raids. goes on, we will be able to increase the measure of our service and interest with possibly some One of the advantages of the change will also be making it possible for us to give better

Good health from food depends largely on how the food is cooked. Some vital food elements are soluble in water . . . that's why soup is an ideal food. But when water is used to cook your favorite pot of greens, a pot roast or whatever you like, it works the same way as with soup - draws out the health-giving vitamins and mineral

YOU CAN SAVE THESE VALUABLE FOOD ELEMENTS WITH WATERLESS ELECTRICAL COOKING ...

YOU BUY!

Cook with little or no water. All fresh vegetables contain sufficient water for modern electrical cooking. It is only in the interest of speed that any water need be added to start steaming. Don't use more than an inch of water use high heat to start steaming, then turn down to low until done.

REDDY SAYS:

"Guard your health - keep on the job. Guard your spending—keep on buying WAR SAVINGS CERTIFICATES."

THERE'S health AND energy FOODS

WHAT DO YOU GET IN THE FOOD

salts. When this water is drained off, the most vital elements go with it.
