CLIP THESE COAL TIPS

Shake Gently

Shake only when necessary to bring up the fire, and shake gently. Shake outside grates first and fire will tend to burn from the sides towards the centre. Centre shaking causes fire to burn in centre only.

His association with a philosophical old telegraph operator, Frank Morgan, his life with his widowed mother, Fay Bainter, the inspiration of his employer, James Craig, and other factors that mould his approaching manhood are woven into a heart-warming narrative. There are comical episodes and there are also tragic moments such as the old operator dying at his key while receiving a message that the boy's brother had been killed in action.
