Juvenile Delinquency . . .

School Inspector B. Thornsteinssen, speaking before the Prince Rupert Gyro Club, gave a revealing address on the matter of juvenile delinquency in Prince Rupert, disclosing a recent and sudden deterioration, suggesting some reasons for it and declaring candidly that it was up to the community to decide whether the situation was to be allowed to drift into an inevitable more serious state of affairs or take some action in regard to it.

One of the definite proposals of Mr. Thorsteinssen was that the civic centre project here should be brought to fruition at once so that it might play a useful part in meeting an urgent and immediate need. procrastination in connection with which would be a perilous matter.

Another proposal was better gymnasium facilities at the schools.

Less directly Mr. Thorsteinssen suggested that there might be an improvement in home life and parental interest and supervision.

Here is a serious situation. Many people have, perhaps, more or less haphazardly or impersonally thought of it. It is more important than that, however. It is something that every citizen of Prince Rupert may be able to take action in some way in remedying.

Any movement that may be instituted to stem the trend toward juvenile delinquency in Prince Rupert, it should hardly be necessary to suggest, is worthy of all possible support of every citizen.

AIR FORCE CASUALTIES

Are your Children THIN NERVOUS UNDER PAR?

Try New, Improved OVALTINE

Children who are thin, nervous and under par, science has discovered, are often found to be eating foods which do not give them enough of the essential food elements everyone needs for health.

As a "protecting" food-drink, *New, Improved* Ovaltine adds to a child's meals the essential food elements most likely to be deficient.

Three servings of *New, Improved* Ovaltine furnish a child with a significant portion of his daily requirement of Vitamins A, B1 and D, Calcium, Phosphorus and Iron—all from Ovaltine alone. Also quick food-energy elements and high quality proteins for building sturdy bodies.

So—if your child is thin, nervous, under par, or eats poorly, start giving him *New, Improved* Ovaltine regularly. Get Ovaltine today at drug or food store.

PRINCE RUPERT

(This drawing portrays a fictional person and is designed to illustrate espionage methods.)

"He's the nicest guy"

...but he's a Japanese Spy!

Japanese spies don't speak Japanese. They're not that obvious. Axis agents were planted in Canada many years ago, and have entered into the daily life of communities near naval, army and air establishments and our great war factories.

They are safe from detection just as long as careless citizens provide them with facts contained in idle talk and gossip.

Drive the enemy into the open by making him work for his information. Don't gossip.
