### No Beer, No Bonds . . .

We are still at a loss to see where any benefits are to able milk situation to the atten acerue from the silly talk we hear these days of "No beer, tion of the powers that be. no bonds." Even the most of those who may talk that way are, we believe, intelligent enough to see the nonsense plea from organized farmers for a of it if they only take the time to consider it. Of course, square deal and after turning a it is because it is so nonsensical that no attention is being dear ear to the warning of impendpaid to it by the authorities who, far from being alarmed ers, we now find ourselves in a posby it, are imposing even greater restrictions and further ition where many invalids and tightening up on the beer.

"No beer no bonds" talk is utterly thoughtless. It is a minimum subsistence ration. disloyal. It is illogical. It is, of course, absolutely selfish. If enough people buy no bonds and thus make their money unpleasant to some. Lack of milk unavailable for the war, the government can and will in the case of growing children and tax it out of the people. Then it will not be repayable. It will be absolutely gone.

"No beer, no bonds" talk cannot hurt the government but it can hurt the war effort and it certainly will ed first on a sensible ration policy react to the disadvantage of those who indulge in it as well, unfortunately, as those who do not.

### HERE'S HOW TO KEEP YOUR ELECTRIC WASHER RUNNING

- Drain immediately after the washing is done. Rinse tub thoroughly after each washing. Remove agitator or suction cups and rinse.
- Remove any soap curd, or lint, that may have remained in tub, agitator or suction cups, with soft cloth or sponge. Wipe your washer clean and dry after each use. Be sure to cover it over if it is kept in a dusty place when not at work.
- Rolls and frame of the wringer should be wiped dry. Release pressure on rolls when not in use to save the spring and the rubber.
- The cover should be left off the tub until all dampness has evaporated, to prevent musty odor.
- The connecting cord should be wiped dry and carefully wound on hooks provided.
