# Tet READY TO MAKE ANOTHER WAR-WINNING INVESTMENT

Fighting men trained and equipped in make to buy them, are surely a cheap price to Canada, and tools of war made here, financed with money borrowed by Canada from her people, have had much to do with keeping the enemy away from our shores. Truly, our beloved country has been spared.

And our men and women, and the ships, planes and weapons we are still sending to the front, are keeping Canada's name notable in what well may be the decisive stage of the greatest war of all time. In light of latest developments, it must be clear to all that Victory Bonds do, indeed, foreshadow Victory. The temporary sacrifices, and the readjustments in our normal financial plans that we may have to pay for the rewards they win.

There is reason to believe that the great struggle that has for so long disrupted our way of life is approaching a decision. Money must be had to keep our ships sailing, our planes flying and our fighting forces on the road to success. Soon there will be another issue of Victory Bonds. The proceeds will give impetus to our forces to push home the sword of triumph. No matter what the temporary sacrifice, be ready to buy more Victory Bonds when the call comes. Prepare now to buy all you can. Every bond you buy will contribute to the downfall of the enemy. And remember, the war won't be over till we win it!
