Fighters__And Potential Voters . . .

The U.S. presidential election in 1944 promises to be one of the most interesting and significant in the American history for two reasons: The Fourth Term issue and the fact that, for the first time a block of votes will exist outside the States, big enough to decide a close contest.

By voting time next year, the American overseas soldier vote may run as high as 4 to 5 million, from a total armed force of 11,300,000 Mr. Roosevelt's popular vote pluralities in '32, '36, and '40, were respectively 7,060,016, 10,797,090 and 4,938,711; so the importance of the armed force vote both in the States and overseas is evident.

A new kind of political campaign on a huge scale is in the offing. Issues of the election will have to be carried literally to the ends of the earth.

Control of the mediums, the radio and the press, by which servicemen get their news is in the hands of the government. Already the Republican opposition is charging that the Democratic Government is carefully protecting the Armed Forces from polities—particularly Republican politics.

To the millions of Americans fighting for Democ- crossed pay dirt on another racy, important rights are involved, not only the right of the fighters to vote, but their equally important right to a fair hearing of both sides of the campaign.

- Canadians will watch the election with keen friendly interest mainly because President Roosevelt is immensely popular in Canada, but also because the dows for a double. Carlson then American handling of the overseas vote will offer useful experience for the next Federal campaign in Canada, due any time within the next two years.

The Liberation of Corsica . . .

To most of us the invasion of Corsica is just an- end the inning and threat. other Mediterranean island operation. But to the French it is much more. It is the first step in the liberation of France, and it is being conducted by French troops, with some Italian support and the frenzied co-operation of the inhabitants of the island.

Allied political strategy in the Mediterranean area may have slipped a few cogs from time to time. But entrusting the liberation of Corsica to the troops and ships of Gen. Giraud was sheer inspiration of the highest order. The French are a proud people. They have never quite figured out what happened in 1940 when their army, which they had been told was the finest in the world—an opinion shared by many alleged military experts in other lands—melted like the snows in spring before the German blitzkrieg. Now they are having an opportunity for revengerevanche they call it. Nothing could be sweeter. except perhaps driving the hated Nazis from their beloved Paris. It is no surprise to learn that no German prisoners are being taken.

Corsica has another special meaning to the French. It is the birthplace of Napoleon. Opinions about the two doubles apiece and ade-Little Corporal have varied from time to time, but quate gardening, contributed he is still a great national hero to Frenchmen. He immensely to the cause. As a is also a hero to the Italians, who claim that he really ayed good ball, a quick tranbelonged to their race. Perhaps a common effort in the liberation of Napoleon's homeland may bring together the two great Latin peoples whose separation was one of Mussolini's blackest crimes.

So "Mr. Maitiand Speaks."-Wonderful! Too bad he is so far behind thousands of mere taxpayers. If he lived in Prince Rupert there would be some excuse for his being in a trance so

The same applies to several poor dopes down at Ottawa. It will be a good thing for Canada when more of them follow the example of Lord Bennett.

expect Rip va., Winkle (Rupert) has rolled over and gone to sleep again after 25 years of slumber, since Vancouver stole the G. T. P. It would be expecting too much if there was any change during the next twenty-five years. How Laurier can rest easy in his grave is hard to figure.

Too bad Canada has no Liberal party nowadays-just two Conservative pa. ties-the "Ins" and "Outs" Tough Luck.
