As Mr. Dobson also noted that dethe hope that the faithful workers who are carrying on to sudden revolutionary change which would uproot the economic with considerable sacrifice through generous application of time, effort anl possibly some personal expense, too, may find coming forward to offer their assistance helpers as zealous and industrious for the good cause as they are themselves.

Wounded Plead for Medical Aid . . .

Medical people can understand in ways that others

can't what the Russians are up against.

On the 2,000-mile Russian front, some 15,000,000 men and women are engaged. It is a front where human flesh has to contend with burning frost as well as with gunfire. Knowing this, medical people can well understand what the Russians face.

Over three million have been wounded on the Russian front. There are heavy casualties behind the front. Hundreds of thousands of victims have been found in the liberated villages—women, children and aged—who have been starved, worked to states of exhaustion and tortured by the Nazis. There are countless cases of frost-bite and shock among those made homeless and driven about by the enemy. In the cities under siege, large numbers have been severely undernourished.

Physicians, nurses, psychiatrists, dentists, pharma- million. Your bank alone has subcists, social workers, all who engage in the medical-social stantially over one million demosit field can well understand what their colleagues in Rus three million Canadians holding sia are up against. They can understand how dreadful savings Certificates or other govit is to have to work with a serious lack of drugs hospital supplies, without enough food and warm bed- holders of life insurance policies in however, represent an inconveniding for patients.

Never before in the history of the world has medicine tell the theorists and agitators what been faced with such a challenge as faces the health changes are acceptable in the mode workers in the Soviet Union.

The Russian people are, literally, blocking the Nazis

with their bodies. Medical workers can understand what an appalling the course of events." price the Russians are paying for their gallant stand

against Hitler-our common enemy. The medical supplies we can send to Russia will be extremely well used. H. W. Blakeslee, Associated Press science editor, has reported that the recovery rate among which had been brought about by often under difficult conditions. all the wounded on the Russian front is 98.5 percent. Rus- the war would remain. "There must Routine work has increased as a sian medical and related services have sent back into the war, close to 2,000,000 persons. They are now back in

there, fighting for us as well as for themselves. What a gift this is to the Allied cause! The value of this gift can best be understood by our medical people.

That is why the Canadian Aid to Russia Fund must appeal especially to the medical and allied professions in Canada. Their gifts of medical and surgical instruments, collection of TAXES or of cash to buy hospital supplies and warm things for the wounded in Russia have exceptional value. The Can- Mr. Wilson expressed the opinion "We are broud of the contribuadian doctor can, through the fund, hand over to his col- that the present eight months' lag tion made by our staff to the armin payments created a most serious ed services.
