We must tace these facts in 43

THE COST OF WINNING THE WAR is something we can neither escape nor avoid. Victory has to be paid for . . . let us face the price squarely. Canada MUST have Five Billion, Five Hundred Million Dollars for this fourth year of war. Where is this huge sum to come from?

Taxes will yield part of it, but when all taxes are paid we shall still need Two Billion, Seven Hundred and Forty-Eight Millions. And, as a first step towards meeting that need, the minimum cash objective of the Fourth Victory Loan will be One Billion, One Hundred Million Dollars.

True, leading financial and industrial concerns will take up a large portion of this sum. But the amount left to be met by individual purchasers will be very greatly increased. Two things will be necessary:

(1) The amount purchased by each individual will need to be much greater than in the last Victory Loan, and . . .

(2) There must be participation by many more Canadians in every walk of life. In order to reach even our minimum objective, MORE people must buy MORE bonds.

I realize that it will call for a supreme effort on the part of every Canadian to meet this demand, that the Fourth Victory Loan will be the greatest financial challenge we have ever faced. Yet we dare not falter now. Unswervingly and relentlessly, we must work and save together. For the results of this Fourth Victory Loan will be the inescapable measure of our determination, our unity of purpose, to achieve complete and overwhelming victory.

I know the strength, the discipline, and the united purpose of my fellow-Canadians. I am confident that we can, and will, meet this challenge.
