THE MAYOR can deliver all the fireside chats he wants to appealing to the parents, the young people and the Hoodlums against out-of-bounds Hallowe'en activities. The Daily News and many others have been making appeals for years along these lines to the honor and good sense of the young folks and the others but, evidently, there will always be some who want to spoil the fun for the most by sneaking around and having a perverted good time for themselves at the expense and embarrassment of others.

The only thing now is to catch some of the culprits and deliberately make an example of them. For years now the schools have been victims of window breakings on a large scale at Hallowe'en. It should be a fairly easy police job to organize a little detective work and catch red-handed the perpetrators of such acts as breaking ninety panes of glass in a single school.

Drastic action is required now and will be more effective than moralizations by the mayor, the Daily News or any one else. The people who do the wanton acts know it is wrong and repeatedly telling them so, apparently, only makes the game more interesting for them.

Nor does it seem likely that lecturing parents who either do not or cannot keep the children for whom they are responsible in check is going to help very much.

The time has come to get tough with more action and less talk.

A FRANK C.C.F.ER

THE C.C.F. member for Omineca is to be congratulated on his frankness. Mr. Rowland, in speaking of the futility of his representation at Victoria before a meeting at Omineca's principal town of Vanderhoof recently, admitted that he had not accomplished much. He is reported in the Vanderhoof Chronicle to have said:

"A private member has little opportunity. We have the opportunity to speak on the King's speech and the budget. The members spoke chiefly on roads. I - said I was sure the roads in Omineca were worse than anywhere else in Brit. ish Columbia. Other members thought the same. I spoke on the bridge across the river at Vanderhoof. Regardless of party, if I can be of assistance please drop me a line and I will do the best I can on your behalf."

If some of the other members, although more voluble, were as honest as Mr. Rowland about their failure in getting things done for the people who send them to Parliament, it would be easier for those electors to decide what should be done about it.

And, even if he does not think so himself, Mr. Rowland may be getting as much done for his riding as some other members are. The trouble is that electors sometimes do not size up the abilities or the possibilities of those who represent them or who essay to represent them to get things done. Of course, a lot of the members are good on political philosophizing which wins votes of those who do not figure things out even if it does not bring home the desired bacon.

LABOR PARTY GAINS

THERE IS NO DENYING but that Socialism is still on the march in Britain. The municipal elections at the end of the week, as a result of which the Labor Party won strength in the cities and the boroughs comparative with that which they enjoy in Parliament, was an evidence of that. The fact that the national government is giving the people of Britain—or at least a goodly number of them-what they want and reasonably good and sound government besides is helping the party in all fields. The Labor Party of Britain is, notwithstanding, giving government and administration which any other party could give if it resolved to do so. In fact, other parties might do even better-if they would.

QUESTION OF DAIREN

TAKING OVER by the Chinese from the Russians of control and administration of the now open port of Dairen, now becoming the centre of warfare as it has so often in the past been, is an interesting development. It is hardly to be imagined, auto tourist leaves Ashcroft un- chances of getting competitive however, that the Soviet would give up its control to any Chinese element that would be inimical to it or the communists.

What happens to Dairen may determine the whole course of events of civil war in China which daily has been assuming a more menacing threat of international complications in the Far East.

KEEP COAL MOVING

F THE FACTS of the case as we are informed here are correct, there seems to be some so far unexplained inconsistency which has led to the closing down by the management of the Bulkley Valley Coilieries at Telkwa. Information received here led the Prince Rupert Chamber of Commerce to make representations in support of similar representations already made by the Smithers and District Board of Trade, asking reconsideration of refusal of the War Labor Board to approve an increase in wages for the miners at Telkwa, an increase said to be similar to that already granted in other mines.

The importance of nothing being done which would interfere with an orderly production and distribution of coal at this time when even the government itself is urging consumers to stock up against the possibility of a shortage during the approaching winter is obvious.

Possibly, a mistake has been made which will soon be rectified.

Meantime, it is a pity that a source of coal supply which has been patiently and persistently developed through the years and upon which industrial and domestic consumers in the area have come to rely should be interrupted at such a time as this. It is to be hoped that the matter will be straightened out with a minimum of delay.

Trygve Lie, Secretary-General of the United Nations, recently stated: "The free exchange of ideas and facts between the poples and nations of the world, is the very life blood of the United Nations."

WHO IS TO BLAME?

Editor, Daily News: Congratulations on your editorial page of Tuesday last. Your editorial "A New Rupert Policy"

shows a very commendable change in your own policy and, if adopted by the people in Prince Rupert, should bring about results that will, to say the least, startle you.

Right next to the editorial, on the same page, same issue, is a letter signed by Cecil D. Traxler. You are certainly to be congratulated, Mr. Editor, for publishing a letter that raps the only people that are to blame for Prince Rupert's plight, viz: the people of Prince Rupert. quote from Mr. Traxler: "I steamer Prince Rupert going blame the people who are too south for repairs that there were

THE NEXT TARGET

The report in Saturday's issue lusion." Bravo! of the News to the effect that Bulkley Valley Coal Mines Ltd. had closed down because of government refusal to granta joint labor-management request for permission to pay higher wages came as a shock to one who had just returned from a pleasant two weeks' holiday in Prince Rupert's hinterland.

While in Telkwa I was very much impressed with the progress made in that little community. Although not quite as large as its sisters, Terrace and Burns Lake, the progress in Telkwa was most marked. spirit of healthy optimism and faith in the future of their community seemed to be evident in everyone talked to.

Unfortunately such feeling is all too scarce in this part of our province. It seems to me rather nconsistent on the nart of the government to tell the people in B.C. to expect a coal shortage this winter and at the same time to refuse to allow mine operators to pay a decent wage to their miners and so force mines to discontinue operations.

It is to be hoped that protest by the various Chambers of Commerce and Boards of Trade will have the desired effect. not, a mass protest by all organized bodies in the north would seem to be called for.

We in Prince Rupert have seen something of government stupi-
