

VITAMIN TABS HELPING INDIA

NEW DELHI, (C)—The government of India's health department reports that to date there has been no noticeable deterioration in health conditions in the "famine" areas of Madras, Bombay and Mysore. India has placed orders for 150,000,000 multi-vitamin tablets and 6,000,000 of these are expected from the United States.

Figures for grain shipments to India between January and June 1946 are given as 799,600 tons of wheat or wheat substitutes and 91,600 tons of rice.

Wheat contributions made by different countries are as follows: Australia, 444,000 tons; Canada, 137,600 tons; United Kingdom, 5,500 tons; United States, 132,500 tons.

Of 80,000 tons of maize scheduled for shipment to India, the United States and the Argentine are to supply 40,000 tons each.

Auto Rates Up In New Zealand

AUCKLAND, N.Z., (C)—Britain has gained a big lead on the United States and Canada in exports of automobiles to New Zealand. There are nearly 1,000 post-war English cars on the roads already and more large shipments are due shortly. The first supplies from North America are not expected for several months. From latest reports it seems unlikely that they will be able to undersell the English product as was at one time thought, although English cars are selling at nearly 100 per cent above the 1933 price.

ARMY ORDERS CEASE
CAPE TOWN, (C)—South African footwear manufacturers, who have been making boots and shoes for the British Forces, have been asked to cancel the orders previously given them. Some of the South African factories have already switched to civilian production.

ACTOR WILLIAM DEMAREST BRANDS PIE-TOSSING LOST HOLLYWOOD ART

However, Actress Betty Hutton Hurls An Accurate Pastry, Slapstick Veteran Recalls

The art of accurate pie-throwing, brought to its highest form of perfection in Hollywood during the Keystone comedy era of a quarter of a century ago or more, probably would be lost to the world as a high skill if it were not for the uncanny eye and vigorous arm of actress Betty Hutton.

Incidentally, Miss Hutton is also the most violent woman in Hollywood, a city whose definition of subtlety carries a meaning comparable with the effect of a Windsor tornado.

These gems of Hollywood bric-a-brac come directly from the mouth of a Hollywood veteran who knew the film capital in the Keystone Kop days and who knows Betty Hutton. Actor William Demarest was a visitor in Prince Rupert Wednesday on a vacation after making a film which involved both.

Escaping unscathed from "The Perils of Pauline," a satirical revival of the interminable serial-thriller which captivated audiences in the early days of moviemaking, Mr. Demarest took his pretty wife by the arm and headed north to recoup from the strain of an overdose of slapstick. He was buttonholed by a Daily News reporter on Third Avenue while the steamer Prince Rupert was docked here yesterday.

"Yes, the art of pie-throwing has fallen into low estate since the old Keystone days when every shot was a bulls-eye," said Mr. Demarest. "Why we had several former Keystone Kops who had lost their skill entirely. Chester Conklin, Jimmy Finlayson and Hank Mann were all former Kops and they could hit an actress in the face with a pie at six feet."

Betty Hutton, who played "Pauline" in the epic which will be released in October, did much better. She managed to knock Mr. Demarest down with a pie and also to knock out three men with a stuffed fish. Her accuracy with the pastry and her energy were disconcerting.

"Yes, I'm taking a rest," repeated Mr. Demarest, who played the part of a director-producer in "Pauline." "After working with Miss Hutton a rest is more than necessary."

Impressed With Low Cost of Meal

Most vivid of Mr. Demarest's local impressions is the low cost of food. Crowning satisfaction, to an eminently satisfactory meal at a downtown restaurant was

NEW HOSPITAL AT MILLER BAY BEING PAINTED

The Miller Bay native hospital, shrouded in dingy camouflage paint since it was built as a Royal Canadian Air Force casualty base during the dark days of the war, is having its sprawling exterior transformed by a coat of cream paint, with green trimmings.

Dr. J. D. Galbraith, director of the as yet unopened institution, is unable to say when it will open its doors for patients but he hopes to have his staff assembled later in the summer. Difficulty in obtaining nurses is the cause of the delay, Dr. Galbraith said.

However, he has obtained a matron. She is Miss C. McDiarmid, R.N., of Vancouver, who was on the staff of the Prince Rupert General Hospital a number of years ago. Other members of the staff of 80 are gradually being lined up.

The exterior painting work on the 150-bed hospital is being done by Fred Scadden, local contractor. The institution will be primarily for the treatment of tuberculosis among the native population.

Aluminum production increased from 59 million pounds per year in 1936 to 924 million pounds in 1944.

EXPECTS SLIGHT TOURIST TRADE FOR HAZELTON

The hospitable and lovely Hazelton district will not see much of an American tourist boom this year in the opinion of Charles Dawson, prominent Hazelton general storekeeper who is in the city on a short business trip. His prediction is based on letters from several Americans who are perennial summer visitors to the interior community.

"So far we have had only a very few American tourists at Hazelton and I doubt very much if we have a very big season," Mr. Dawson commented. "I have had several letters from Americans saying that they would love to come up to Hazelton but that their automobiles are getting old and they hesitate to make long trips with them. And they are unable to buy new cars."

However, he anticipates that there will be a considerable influx of Canadians who are fortunate enough to have to travel

shorter distances to reach Hazelton. He thinks, when the salmon run on the upper Skeena begins there will be plenty of fishermen on hand.

Mr. Dawson, who carries as wide a variety as possible of sporting goods, says that he is having difficulty getting light fly rods and official quality

RARE RUBY
Perfect rubies are much more than good diamonds.

baseball bats. In general, he the sporting goods supply poorer than it was during war.

Mr. Dawson arrived in the Tuesday night and is returning to Hazelton on tonight's train.

Beautiful Smiles Depend on Teeth

FINE, SOUND TEETH DEPEND ON FOOD!

THE beauty of a child's teeth depends so much on proper diet. And Carnation Milk is outstandingly useful in a diet planned to maintain healthy teeth. For Carnation, as it pours from the can, contains twice the calcium and phosphorus found in ordinary milk... and many times the "sunshine" vitamin D. As a drinking milk (properly diluted and chilled), used in cooking, or used undiluted on cereals and fruit, Carnation can do a lot for the teeth of your youngsters.

For menu help and milk information, write for free book, "Growing Up With Milk". The Carnation Company Limited, Toronto, Ontario, or Vancouver, B.C.
