VIENNA BOY CHOIR BACK IN HOFBURG

VIENNA, (P)—Sixty little boys who can sing "like the angels," are back in the Hofburg, the Vienna palace of the Hapsburgs, sharing a wing with Russian troops and polishing up the hymns and songs they have sung all over the world as the Vienna Boys' Choir.

Allied authorities have closed one eye to the fact that the choir went right on singing while the Nazis were in town, sang for them and even went on tours to France, Belgium, Holland, Poland and Germany while Austria was considered a part of that big, unhappy country. Most of their singing now is for Allied troops, but they all have an eye on the concert circuit, especially in America.

Father Joseph Schmitt, the priest who handles the administration of the choir, spent three weeks in the custody of the Gestapo in 1938 and was forbidden to take any part in the organization during the Nazi regime in Austria, but he is back now.

None of the boys who sang in America every year from 1930 to 1936 are around any more. A good many of them died fighting in Hitler's armies.

The choir was founded in 1498 and had a continuous existence to 1918 when the fall of the Hapsburg dynasty took away its chief support. It was founded again six years later and re-established in the Hofburg.

Father Schmitt's main problem is finding food for these boys. However, he has managed to keep them from losing weight by making weekly trips to his birthplace in the Russian occupation zone and bringing back potatoes and anything else he can scrounge.

Not many of the boys who sing in the choir grow up to be great statesmen. But a great many do turn out to be musicians. Among those who sang in the choir were Franz Schubert, Joseph Haydn, Clemens Krause and Anton Bruckner.

COMMUNITY CENTRE MEET

Don Forward Represented Prince Rupert at Recent Gathering

Don Forward represented Prince Rupert Civic Centre recently when well over a hundred people from many parts of the province attended the two-day community centre institute at the University of British Columbia last week.

This was the first institute of its kind to be held in Canada and judging from the reports of many representatives who attended, the success achieved augurs well for future province-wide institutes on community centre problems.

Of greatest value perhaps, was the exchange of ideas on how to tackle these common problems. This, and the advice of experts in various fields of community activity, would do much towards ensuring success in community centre projects throughout the province.

In opening the institute, Dr. N. A. M. MacKenzie, President of the University, stated that "No community centre can be a success unless it is backed by a true community spirit."

Pre-requisites

He listed three pre-requisites necessary for the establishment of a community centre—an intelligent survey of existing facilities in order to avoid needless duplication and waste, a director or a nucleus of leaders with imagination and energy, and sufficient funds for operating as well as capital expenditure.

Miss Elizabeth B. Thomas, special lecturer in group work in the Department of Social Work was the director of the institute.

Dr. M. A. Cameron, Head of the Department of Education at U.B.C., and author of the recent report on education spoke on the relation of schools and community centres. It was his opinion that the cost of school maintenance should be shared by the provincial government in the community, and that schools should be made available to fill the needs of all the community.

Dr. G. M. Shrum, Director of the University Extension Department, outlined the services of University Extension in the field of community activities and explained the many ways in which

the University was attempting to meet the needs of small community centres throughout British Columbia. "Financial help to adult education in B.C. is just in its beginning," Dr. Shrum said.

Stanley Bligh, well known critic of the Vancouver Sun, emphasized the needs for the proper emphasis on cultural activity in community centres. Two speakers on the physical set-up of a Centre were Mr. Ned Pratt, well known city architect and Robert Orchard, Vancouver theatrical director. Mr. Pratt made a survey of definite types of architecture for community centre buildings, while Mr. Orchard spoke on the design of stage and auditoriums. The discussion during the two-day meeting was divided into four main parts—the values, organization, program, and physical set-up of a community centre.

At the conclusion of the institute an Interim Provincial Community Centre Committee was set up to look into the possibility of holding further institutes.
