

Say . . .

MERRY CHRISTMAS

WITH

ANTI-TUBERCULOSIS SEALS

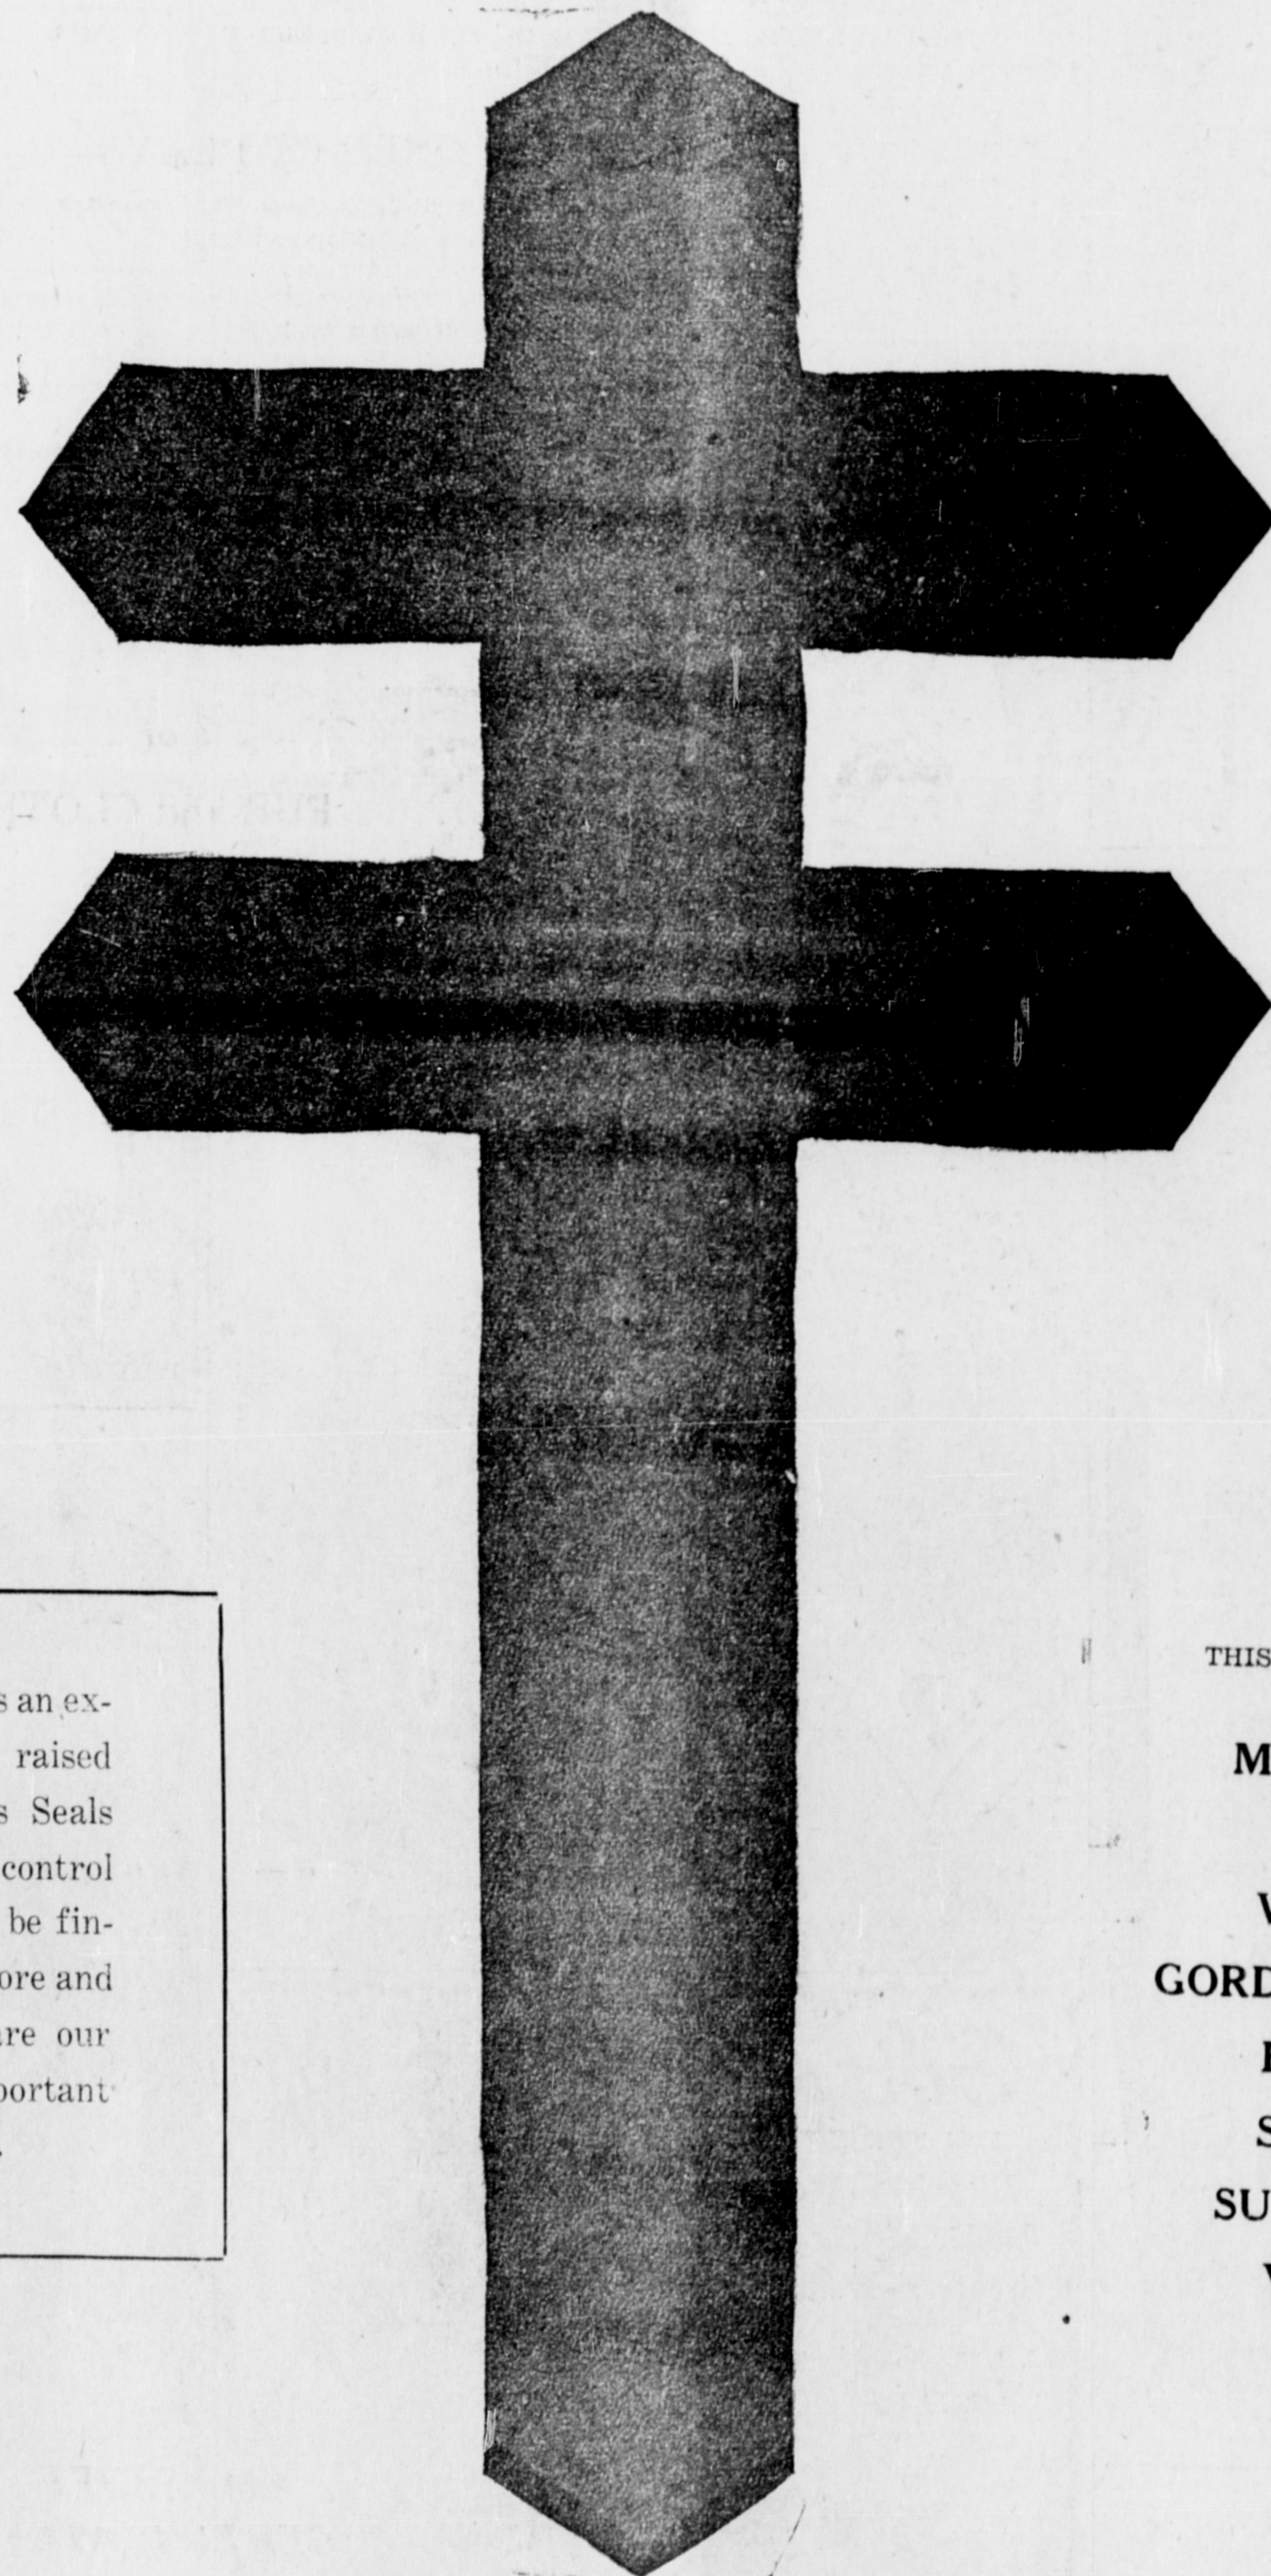

Rally To The Double-Barred Cross

*Two Dollars worth of Christmas
Seals have now reached every
household in Prince Rupert.*

• *If everyone buys his share the
Anti-Tuberculosis campaign will
be successful.*

FIGHTING TUBERCULOSIS is an expensive proposition and money raised through the sale of Christmas Seals helps to provide prevention and control measures that would otherwise be financially prohibitive. Let's buy more and more Christmas Seals. They are our allies in one of the most important health battles now being fought.

FIGHTING TUBERCULOSIS has become more and more a community effort, a citizens' movement. Funds raised through the sale of Seals help pay for mass X-ray surveys, health education, nursing services and, in some instances, rehabilitation of the ex-tuberculous into profitable employment and normal living conditions. These efforts, of course, are supported by the Canadian Tuberculosis Association and the provincial Department of Health.
