Khatada Club to Be Valuable Adjunct to Organization

The Khatada Girls' Club at their bi-monthly meeting this week decided to accept the invitation to become the Junior Ladies' Auxiliary to the Prince

These charming and talented young ladies should do a very worthwhile job in rendering voluntary services to the Centre and as they will be "on the job" Anyox. at the "Centre's" main desk every evening, as well as working in other capacities on special occasions, it might be appropriate to tell you something of the club and its activities.

In 1945 a number of girls who passengers leaving for Skidegate had been working together in on the Cassiar today. the "Y" Hostess Club decided that they had the nucleus of a more permanent service and social organization. In December of the same year, they had their first meeting and the newly formed club was named the Khatada Girls' Club, the name being selected on account of its local significance.

The little organization flourished from the start and its present membership has reached 25, the ages of the club members ranging from 17 to 23 years

Ald. (Mrs.) N. E. Arnold is the honorary president of the club and its elected executive is headed by Miss Joan Taylor as president, Miss Evelyn Bussey lotte City on a business trip, was as vice-president. Miss Audrey Grimble, secretary, and Miss on his way back to Port Clem-Betty Payne, treasurer.

The winter sports enjoyed by club members include bowling and rifle shooting.

The Khatadas sponsored a tea dance for servicemen during the Christmas week and subsequently held a highly successful Valentire dance. The girls have offered their services on many occasions to the "Y." their special job to act as hostesses for service dances.

On April 12 the girls are holding a big hoe-down dance.

When the new Civic Centre was officially opened on March 17, the girls were once more "helping out." Now that they are a part of the voluntary staff of the "Centre," the girls themselves will, no doubt, become an integral part of the Civic Centre program.
