## GIRL'S COMPACT FOOLED GERMANS

Belgian Girl Visits Hamilton Family Whose Son She Saved From Nazis

HAMILTON, Ont., (AP)—A powder compact served as hiding place for the important dispatches which Raymonde Rock of Peruwez, Belgium, carried from one chief to another in the underground organization when the Germans invaded the country.

During the war she taught school and the Germans never suspected that in her spare time she was capable of packing guns and ammunition for the underground, by bundling them in saddle packs and hauling them on her bicycle.

In Hamilton she now is visiting Mr. and Mrs. Albert Nethery and their son Alex. Miss Rock

saved Alex from the Nazis more than two years ago.

"Every day for 120 days Miss Rock and her mother ran the risk of being shot for hiding me," said Alex, a former R.C.A.F. pilot.

Miss Rock is in Canada on behalf of the Belgian government to study the educational systems in this country and also in the United States.

She had a good reason for joining the underground during the war—"In the First Great War the Germans killed my father and my brother," she said.

PLAN POWER SCHEME

BOMBAY (AP)—The Bombay government has embarked on hydro-electric and thermal schemes, involving the expenditure of about \$40,000,000, which will bring electric power to every village. This power will be used not only for lighting but also for village industries and agricultural operations.

She had a good reason for joining the underground during the war—"In the First Great War the Germans killed my father and my brother," she said.
