while you wait. PHONE 649 - 220 Sixth Street

Producing goods to load the outgoing ships creates more business for all. For instance . . .

rmers raise more products to be sold in ner countries . . .

tere are more jobs in factories, as more cods are manufactured to sell abroad . . .

We get better values at home, too, for it costs less to make goods in large quantities . . .

The money we get from our foreign customers helps us to pay for goods they make and we need . . .

HE HECT Circle

Look at these ships. When both ride low in the

water, we have good times. Do you know why? The Outgoing ship is loaded with goods we make, and production of these goods makes work and wages. The Incoming ship is loaded with foreign goods. These goods also make work and wages; they are either used in manufacture ing or retailed in our stores.

This Magic Circle of Foreign Trade pays more than one-third of all the wages and salaries in Canada. It creates work equal to 3 jobs in every 8. This means your pay envelope, your job, or your business profit—not just some other fellow's.

And here's how you can help to keep the Magic Circle producing good times for you: First, be cheerful and patient when you are asked to wait a little longer for merchandise you want. Give the people who produce it a chance to ship all they can overseas, for if we do not supply our foreign customers NOW, we will lose them. Second, put your best into everything you produce, for some of it will find its way into foreign markets . . . where it will either make or mar our future business.

Everyone who buys or sells goods abroad helps create prosperity in Canada. That is why we have a Foreign Trade Service in the Department of Trade and Commerce. It maintains Trade Commissioners in 29 countries, and an experienced export and import staff at head office, to collect the most up-to-date information on foreign markets, and give practical help to every business that wishes to buy or sell in other countries.

So our factories get the imported materials they must have . . . like tin, chemicals, fibres . . .

Some of these materials become binder twine, bags, insecticides and other items that help our farmers raise and market their crops . . .

And we all get a variety of things we cannot grow here, such as tropical fruits, coffee ...

HON. JAMES A. MACKINNON, MINISTER

M. W. MACKENZIE, DEPUTY MINISTER

Or cottons and linens, for our clothes . . . rugs for our floors . . . gasoline for our cars . . .

So everyone has better times, more money to spend, and better merchandise to spend it on.

CENTS OF EVERY \$ 00 OU GET... COMES FROM ANADA'S TRADE ABROAD
