### FILM BOARD PICTURES ARE FORUM BASIS

A dozen National Film Board films of a new series have arrivbasic for film forums and the pictures will be shown in the Civic Centre at weekly intervals, beginning Thursday night. Preview of the films was held last night and was attended by representatives of several city organizations.

The films are being handled by M. J. Harper, chairman of the Junior Chamber of Commerce film committee, and will be loaned to interested organizations for instructional and educational use.

Following the Civic Centre showings, film forums will be held during which the topics or ideas inspired by them will be discussed.

According to Mr. Harper, the important factors in making a

film worth while are: 1. A film that gives concrete information

A new stand on the subject, and impetus to learn more and do something about it.

To hear various points of view, and to have the opportunity to express an opinion.

4. Contributes to making people think.
