Chile Orders 250 Buses in Canada

MONTREAL—A British United Press dispatch from Chile quoted the Chilean Development Corp. as saying it had accepted a bid from a Canadian firm to supply 250 trolley buses. Delivery of 20 a month is to begin in mid-1947.

An official of the Canadian Car & Foundry here said he did not believe his was the company referred to, although it had been reported that Canadian Car had been negotiating with Chile on buses. Early last week Canadian Car had not received official notification that any bid it may have tendered had been accepted.

ENGLISH CHILDREN OFF ON SWISS VACATION — Children from Birmingham and Coventry, England, who have more than their share of the ordeals of war smile again as they leave London for a vacation in Switzerland. The children, 130 of them, were housed overnight in an air raid shelter in London. This shelter has been converted into a hostel for "stayovers" in the capital. The vacation was arranged under an agreement between the children's welfare section of the Swiss Red Cross and the British ministry of education.

URGING TO PURCHASE BONDS

MONTREAL — "Let us, the largest group of industrial workers in Canada, set the pace for the rest of the country," said R. C. Vaughan, C.M.G., chairman and president of the Canadian National Railways, in a circular addressed to all officers and employees of the system.

He solicited their support in the Canadian savings bond issue.

"There will be no patriotic call, no mass meetings, no objective to meet," the C.N.R. president's message said.

CONVENIENT SAVING

"You may go on saving in the convenient way you learned during the war and every employee of the Canadian National will be given an opportunity to subscribe."

Mr. Vaughan congratulated the railways' employees on their response during the war to the Victory Loans in which they subscribed more than $93,000,000 and pointed out that the new loan actually acknowledges the requests of eight out of ten Canadians who in a nation-wide poll declared their wish for the continuation of the government's saving plan in peacetime.

BURBANK, Calif. — Fighter planes capable of flying 800 miles an hour and easily handled will be available to the U.S. Army in the not too distant future, according to an official of a local aircraft manufacturing company.

CHAMBER OF COMMERCE HEAD URGES LABOR-OPERATORS WORK TOGETHER

(Special to the Daily News)

WINNIPEG — Declaring that labor-management had failed to bring about conditions under which Canadians could produce goods that in these postwar days they were entitled to have at reasonable prices, C. Gordon Cockshutt, president of Canadian Chamber of Commerce, speaking Tuesday to annual convention here, asserted that labor had told its story and now it was up to business to express its opinion.

Cockshutt asserted labor and management should get together at once and assume responsibilities in re-exemplifying the character which had carried through the war with such success.

A crisis faces Canada today in solving its industrial and economic problems just as great as that of the war.

CHAMBERS MUST LEAD

In presenting views of management, the Canadian Chamber of Commerce must assume the lead, declared Cockshutt.

"Aims of business must, of necessity, coincide with long term advantages of this country," said Cockshutt. "Business, as represented by Boards of Trade and Chambers of Commerce, is a good cross section of farmers, co-operators, fishermen, miners, manufacturers and merchants."

"In the matter of export trade Cockshutt warned against other nations getting ahead of Canada "while we are quarrelling among ourselves."

IMMIGRATION VITAL

Declaring that immigration and industrial development went hand in hand, Cockshutt asserted that it was preferable for Canadians to direct the colonization of Canada now rather than to allow a foreign nation to do so after another war.

Mr. Cockshutt urged full co-operation by the Senior Chambers of Commerce with juniors with freer action for the latter so that ambitious young men with their eye fixed on the future might more fully participate in the march of progress.

Study of national affairs by setting up of special committees in each community Chamber of Commerce was advocated by Mr. Cockshutt. Board of Trade sights in every individual community must be raised.

UNITY NEEDED

Business executives must be prepared to get out and give freely of their time and effort in facing Canada's No. 1 problem which was "establishment of unity on Democratic lines," more freedom of the individual to reap the results of his own efforts.

"If we, through indifference and laziness, do not face up to our personal obligations, if we return to the slots of the past, God help Canada," concluded Cockshutt. "We can govern our own destinies and assist the less favored nations of the w... through individual ... participation in the fa... contact between Canad... and west, north and ... labor, farmers and ... turers."
