Hamilton Tigers are on their way to Regina where they will meet the Calgary Stampeders for the first game in the best-of-seven-game series for the Allan Cup. The eastern Canadian senior hockey champs left Hamilton Saturday night for the west and their battle for the senior hockey championship of Canada. They climbed aboard the train amid the cheers of hockey fans who were on hand to see the Hamilton team on their way.

At Wembley stadium in London Saturday night, Canada defeated Czechoslovakia 10-6 in a hockey game that was billed as international. Franck Boucher of Ottawa stole the show as he scored five times for the Canadians. The Canadian team was composed of Air Force and Army players with Johnny Mowers, former Detroit Red Wing net-minder, in goal.

ROTARIANS PLOT 'SECRET WEAPON' AGAINST GYROS

Realizing that something more than creaking muscles and time-dimmed eyes will be required to defeat the athletically-trim Gyro basketball squad, the Rotary "Raindrops" have devised two or three "secret weapons," which the "Raindrops" coach and first aid man Don Ritchie promises will have devastating effect when the two teams meet at the Civic Centre gym some night soon.

Strategy for the Rotary Raindrops was plotted last night by Mr. Ritchie, Gordon Durkin and Johnny McLeod, and the result of this armchair training is predicted to be at least amusing if it is not victorious. The other two team members, Doug Stevenson and Martin Stuart, were absent from training.

The Gyros, bested by a feeling of security following their colorful triumph over the Kinsmen Blackfaces three weeks ago have so far not been reported to be undergoing any intensive training, probably because they feel they don't need it.

However, no matter who wins the comic feature, the rule book will again be the loser, as it was in the Gyro-Kinsmen game.

Roots SOMEONE called trees "subterranean animals waving their tails in the air". Roots are forgotten because they are not seen. So with textiles. You see a sheet, a piece of dress goods or the backing of a carpet, but you cannot see the years of experience and the expensive machinery which went into making it. Back of every "Colonial" sheet, for instance, lies almost a full century of experience and craftsmanship. Nor do you see the risks and adventures of building an industry to make these things, nor the cost and effort to attain and keep up the quality which enables Canadian-made textiles to compete with those of older and larger countries. Dominion Textile workers are now busy turning out the many things that are so badly needed for our peacetime living. As long as the present tremendous demands and relative shortages exist, we shall go on distributing our production on a quota basis, playing no favourites.
