## A MESSAGE FOR THOSE WHO NEED TRAINED WORKERS

## I recommend to you CANADA'S VETERANS . . .

To take full advantage of the great future possible for Canada, Canadian business will need men of courage and initiative - purposeful men of sound judgment. I know where such men may be found for I have worked with them, lived with them and fought with them. They are Canada's veterans and I am confident that the loyalty, initiative and unflagging determination which made them the best troops in the world, will also be the qualities so essential in Canada's business life.

Many are already skilled tradesmen, and many have a sound foundation of skills on which wise employers may build. I know of no better man-power supply in the world than the men and women from Canada's armed forces.

H. D. G. Crerar,

# CONSIDER THESE SERVICE SKILLS

## ARMY TRADE FITTER

Only one of 216 army trades, the trade fitter was trained to make and fit new or reworked parts of guns, power trains, gearing units, valves and machine tools. He had to follow simple sketches and blueprints, and among other duties, make parts from metal castings, forgings and stock. A knowledge of the working properties of steel and non-ferrous metals was essential. He typifies thousands of veterans available to industry

## ELECTRICAL ARTIFICER

In the navy, this man maintained electrical navigation equipment, lighting systems, telephone switches and was a specialist in many naval electrical installations. He was a skilled machinist, qualified for general machine work and for manufacturing and repairing electrical equipment. With on-the-job training he would be capable of house and industrial wiring.

## STATIONARY ENGINEER - R.C.A.F.

His duties were the installation, operation, overhaul and repair of all heating equipment used by the R.C.A.F. He had a knowledge of steam fitting, valves, pumps of all types and underground and overhead distribution systems. He holds a current provincial first, second or third class certificate. This is only one of the many specialized trades in the R.C.A.F.
