ANIMAL MISNOMERS

The lion has been named the king of beasts and the bald eagle king of birds; but the real king of the great cats is the tiger, and of the great hawks, the golden eagle.

* The solemn ritual of the entire installation of the new cardinals is pictured here as they prostrated themselves before the altar of the Adoration in St. Peter's during the "Te Deum."

ORGANIZATION TO BE USEFUL

Mayor Daggett Well Pleased Over Smithers Convention

Six resolutions, aimed at promoting development of north-central British Columbia were passed at the initial meeting of the Central B.C. Municipal Association at Smithers last week, according to Major H. M. Daggett who returned to the city Saturday night after being named president of the body.

First business meeting of the newly formed organization will be held in August, shortly before the annual convention of the Union of B.C. Municipalities at Prince George in September, to which a brief will be presented.

Mayor Daggett expressed high hopes for the usefulness of the organization as a body which will express the solidarity of the north-central portion of the province in presenting municipal problems to the government through the channel of the U. B. C. M.

Awareness by the delegates of Prince Rupert's key position in the economy of the area was disclosed in the subject matter of the resolutions, four of which were, in effect, endorsations of resolutions already drawn up by the Prince Rupert Industrial Development Committee. These deal mainly with this city's future as a port for marketing northern B. C.'s resources.

Weather Forecast

Forecast— Mild temperatures and cloudy skies are expected to persist over British Columbia today and Wednesday.

day and Wednesday. Prince Rupert: Maximum temperature today 44, minimum tonight 33. Cloudy with scattered rain showers during the day. Winds light Wednesday: cloudy, winds light.

INDIAN SCIENTIST ALOFT

LAHORE, India, (AP)—The Royal Air Force has lent a plane to Dr. P. S. Gill, a Punjab physicist, to help him study mesotrones—the most powerful cosmic ray particles—at different altitudes and latitudes. Equipped with scientific instruments for measuring the intensity of mesotrones, the plane can achieve a height of 42,000 feet.
