"Squatters" Take Apartment House In Mass Raid

LONDON—More than 1500 men, women and children seized possession of a luxurious apartment house Sunday, and overflowed into neighboring buildings in Communist-aided mass extension of the month-old "squatter" movement.

The mob took over 300 apartments in the Duchess of Bedford house which was taken over by the government during the war and was recently used as a hostel for a building trade school.

The squatters were people tired of waiting for houses. The cabinet met in special session today and mapped out strategy to check the Communist-led squatter campaign to seize public and private buildings for housing tens of thousands of persons.

\$100,000 BAG EXCHANGED IN MAIL ROBBERY

VANCOUVER—The mail bag containing \$100,000 which was recovered here last week was never sent to Victoria, its proper destination, postal authorities announced today. No arrests in connection with the theft have yet been made.

Authorities refuse to comment on the theft of the money from postal channels until the investigation is complete. In refusing to discuss whether or not it was an inside job, the R.C.M.P. admitted that no hold-up or violence was involved.

Postal authorities said on Sunday that the bag had been recovered with most of the money. It was believed to be destined to Willows race track at Victoria.

It is believed that the bag containing the \$100,000 was taken from the mails in Vancouver and a similar bag containing worthless paper substituted and registered for shipping.

GOOD WEATHER FOLLOWS DAY OF PRAYER

LONDON—An official Air Ministry weather forecast of "fair" following Sunday's national day of prayer for better weather brought a ray of hope to rain-battered, water-logged British farm lands today.

Harvesting was resumed in east Yorkshire following fine weather Sunday, and Norfolk farmers, cheered by the change of weather, were hopeful that half their crop might be saved.

Unprecedented rains and storms have endangered Britain's food crops during the last several weeks, inspiring fear that only a fraction of the grain and fodder might be harvested unless the weather cleared shortly.

Jews Launch Terror Drive In Holy Land

Sabotage, Shootings Mount As Anglo-Arab Talks Open

JERUSALEM—A British information officer announced today that the Palestine railway had been cut in 50 places, the flow of oil to Haifa disrupted, and two persons killed on a series of outbreaks coinciding with the opening of the British-Arab talks in London.

Explosions and gunshots broke out in various sections of the Holy Land.

The information officer said that these incidents were "apparently part of the larger Jewish terror campaign which partially failed, because of a break in timing."

In London, an authoritative source said that Britain "might soon have to invite the Jewish agency to participate in the Palestine talks" on its own terms—"statehood within an adequate area"—to prevent the failure of the conference.

Such an invitation apparently would mean the abandonment by Britain of her plan to use the Anglo-American experts' equalization plan as a basis for the discussion.

TROOPS WILL NOT BE USED

WASHINGTON, D.C.—The government has no intention of sending troops into the maritime workers' strike, it is announced. TERMS ARE REJECTED

HAMILTON—Hopes of an early settlement of the steel strike dispute dimmed again yesterday with over 2000 striking workers of the Steel Company of Canada rejecting the latest new terms proposed by the federal government. The increases proposed by the government ranged from 11c to 12½c per hour. The Hamilton workers intimated they would stay off the job until the full demand of 15½c per hour was met.

Steel workers at two other basic steel plants at Sault Ste. Marie and Sydney were to vote today on the government's new proposal. Pending the result of the vote in Sault Ste. Marie and Sydney, C. H. Millard, Canadian director of the United Steel Workers of America Union, reserved any comment. Pat Conroy said the government would have to come around to a 15c increase.
