Engineers

Former System of Department of Mines Service Revived-Reopen at Prince Rupert

VICTORIA - The system of resident mining engineers for various districts of British Columbia, discontinued a few years ago in favor of a centralized system, is to be reestablished as a means of better serving prospectors and small mining operators, it is announced.

There will be resident engineers again at Prince Rupert, Nelson, Lilloet and Vancouver with possibly another for the central interior with headquartors at Hazelton, Smithers or Prince George.

YELLOW RIVER DIVERSION CONFERENCE-Three care-worn conferees discuss China's ageold "sorrow", the Yellow River, during conference in Shanghai. This conference was called in an effort to gain compensation from UNRRA for farmers who will soon have to move from the old bed of the Yellow River when it is again diverted to its original course. The river had been diverted to stall Jap advance during the war. Left to right are, Gen. Chou Eng Lai. China's No. 2 Communist and chief delegate to peace negotiations with the Kuomintang government; O. J. Todd, chief American engineer of the Yellow River project, and Dr. T. F. Tsiang, director of the Chinese branch of the UNRRA. Until UNRRA, CNRRA and Gen. Chou agree, the projected altering of the course of "China's sorrow" will be postponed.

New Railroad Would Be Built East of Prince George to Hansard on C.N.R.

Development of the Bowron River coal fields is to be undertaken by a company headed by four B.C. men, now in the process of formation. David Wells and his three Vancouver associates, Ernest Sherwood, Frank A. Millican and Harold Jones, have decided to build a light railway from the mine, which is

situated 45 miles east of Prince, George and 80 miles north of Child Murderer Barkerville, to the C.N.R. line Relates Slayings
