HOW CAN I ???

By ANNE ASHLEY

Q. How can I harden the bristles on a hair brush?
A. After washing the hair brush, hold it for a minute under the cold water faucet. This will harden the bristles and make the brush last much longer than if rinsed in warm water.

Q. How can I restore thin silk?
A. Dip it in a weak solution of gum arabic, two level tea-spoonfuls dissolved in a quart of water, and then strain through cheesecloth.

Q. What can be used for toast- ing small pieces of stale bread?
A. For toasting the odds and ends of stale bread, which would otherwise be wasted, try using a cornpopper.

Canning FOR TOMORROW!

Plan now to buy the new electric appliances as they become available.

"Eat what you can and can what you can't" is an excellent slogan to remember these summer days when fresh fruits and vegetables are in season. Of course it's not always convenient to do your canning the same day you see a particularly luscious lot of berries or crisp fresh vegetables. But with an electric refrigerator, products may be kept farm fresh until you have time to can them. You can buy in larger, budget-saving quantities, too, without fear of spoilage.
