SAID ACCIDENT

A coroner's jury which Monday investigated the death of Harold Jeffrey on September 19, brought in a verdict that the Vancouver logger died "as a result of injuries sustained in a logging accident at the Gildersleeve Logging camp at Rivers Inlet."

Jeffery was flown to Prince he had suffered head injuries when a log rolled on him during logging operations at the southern coast camp.

His body was sent to Vancouver, accompanied by his widow, at the week-end.

The jury commended Dr. John Horning, camp physician, and Jack Teigan and Harry Green "for their prompt action and attention in rendering all necessary assistance to the injured, and bringing about his speedy transportation by plane to the Prince Rupert hospital."

Members of the jury were Hugo P. Kraupner, foreman, F. M. Kempton, J. G. Alexander, Emil G. Blain, Robert Greissel and William Howard Wright.

## EVERY EXTRA TURN HAS A MEANING OF ITS OWN!

The average person shifts position thirty-five times during a night's sleep. This is quite normal and healthy.

But how many times do you twist and turn? It is rather difficult to find outone cannot exactly ask some member of the household to stay up and count! Yet that would tell the story of how normally you sleep.

Restful sleep is not a matter of how tired you are, what kind of a bed you sleep on, which side you sleep on-it is more likely to depend on the state of your nerves.

A common cause of frayed nerveswhich result in disturbed sleep-is the caffein in tea and coffee. If you find caffein is bothering you - why not switch to Postum? It contains no stimulants of any kind. It has a full-bodied flavor all its own. Form the Postum habit! Make it right in the cup with boiling water or hot milk. Costs less than a cent a serving.
