WHAT IS

Feeding Formula Speeds Recovery of Transplants

Mix Fertilizer in Bottom of Hole,

When plants which have been started in seed boxes or pots are set out in the garden, the most efficient way of feeding them is to place fertilizer where they can reach it as soon as they begin to grow in their new loca-

Transplanting

It is always a shock to the plant to move it, even if every precaution is taken not to disturb its roots. It must become adjusted to its new home, and during the period of adjustment it is, so to speak, convalescent. when very young, or not so well, Plants are like human patients; they need a special diet; they cannot eat as heartily as when i growing in full vigor.

The way to place a fertilizer so that it will not give them indigestion, before new recover from transplanting shock, is to mix a tablespoonful of plani food with the soil at the bottom of the whole which has been due to receive the new plant. After mixing throw an inch of top soi! over the bottom, so there can be no immediate connect between the plant roots, and the chemical, until the roots star!

When a pot plant is set, firm Then Cover With Soil Before | soil all around it, then pour on plant food has been stirred. If slight depression over it.

LES PATRICK HAS RESIGNED

NEW YORK (P)-Lester Patrick resigned yesterday as manager of the New York Rangers in the National Hockey League. The resignation was caused by poor health and news that the sixtytwo year-old Patrick had stepped down from his post came as no surprise to hockey followers Frank Boucher, the Range coach, was elevated to the post of manager but will continue to actively direct the team play.

the plant roots are bare, pour this water over them, then set the plant and firm the soil around it. The small amount of fertilizer in the water (a handful to a full bucket) will give the plant an immediate stimulus, which will held it recover more quickly from its shock.

When seeds are sown in hills, lift soil to make a depression two inches deep and in the bottom of it mix a tablespoonful o! plant food. Throw in an inch of the soil a glass of water from a fresh soil, and place the seed. bucket into which a handful of covering it lightly and leaving a

Who Suffer With Their Feet You will be interested to know that there is a man in town who has had a wide experience in the correction of fallen arches, and can make Arch Supports that will relieve that painful and tired feeling that only foot sufferers

can explain. Mr. Bill Terry, with many years of study of foot ailments, is now in Hill's Shoe Store, and will be pleased to take an impression of your feet and let you know what

can be done in your individual case. Mr. Bill Terry is also in charge of the Shoe Repairing Dept. where your repairs are executed neatly and promptly. Call around and see him for either reason.
