Ankle-Length Gowns Keynote of Fashion

LONDON, Dec. 12 —Ankle-length gowns are back in London—heralds of victory. For the first time since the war began they are the keynote of fashion.

Glamor gowns of this length have been shown recently in the Mayfair dress salons and inexpensive versions now are being sold in many shops.

"Simplicity of line and glowing, vivid colors characterize the new dresses," said one fashion expert. "We regard them as signs of coming victory."

"I have already sold 50 percent more full-length evening gowns than in any winter since the war started."
