To the Health Seeker

Perhaps, a "Belief" exists that "everything has been tried and, failed"? Has "faith" subsided to the low ebb of accepting as a fact, the belief that a disease is incurable? Meanwhile, a vague misgiving persists that: Somehow, somewhere there must be an answer to incurability.

Chiropractically, the greatest handicap to health restoration is: So many cherish a traditional faith or belief to the bitter end. Meantime, a simple disease descends into an indefinite and complicated realm of incur-ABILITY. Thus faith and belief hinders, and denies, the natural self-curABILITY within themselves the rightful duty to remedy (meaning: to cure again).

Such statements, of disease, special or general are verified by an exhaustive survey. Over 93.000 persons turned, when disillusioned and disappointed, to Chiropractic (Nature) as a LAST resort.

Some 410 qualified Chiropractors raised no question as to the merits of faith, belief or, the competency of any remedy, to cure again. Nature had preordained that everything was incorporated within. Nature's OWN Remedy substituted incur-ABILITY for cure or marked improvement in 79,000 cases; or, 85% of tiresome, intangible disease names.

A critical reader may question this astonishing record. For the needy there are two basic considerations: The belief that a condition is obstinately incurable as, against the Chiropractic record with thousands of varied, incurable cases. Both cannot be right.

When faith and belief fails to move mountains, Mahomet must go to the mountain. Possibly, the earnest Health Seeker discerns, by the mountainous record, that everything has not been tried; that, high odds yet remain in his favor.

As Mahomet would resolve: If Chiropractic eventually, why not . . . NOW!

A FAMOUS PLAYERS THEATRE

CANADA LOCALE FOR SPY FILM

A fiery performance by Errol Flynn, against the background of the snowy expanses of Canada's Hudson Bay country, dominates "Northern Pursuit," which comes Friday and Saturday to the Capitol Theatre here. An exciting narrative alternates guile with explosive outbursts of physical action.

Julie Bishop, Helmut Dantine, John Ridgely and Gene Lockhart, head a supporting cast equal to the story's dramatic vigor and intensity.

To the party of uniformed Nazis, landed on the coast of Hudson Bay on a sabotage mission, the setting is a hostile force which almost annihilates them at the very outset. Only the leader, Colonel von Keller (Helmut Dantine) survives an avalanche of snow and falls into the hands of Royal Canadian Mountie Steve Wagner (Errol Flynn) and Jim Austen (John Ridgely).

Speaking German to the Nazi and revealing his own German descent, Steve hopes to learn more of the captive's, mission and his Canadian contacts. But the less subtle Inspector Barnett claps Keller into a concentration camp, which doesn't hold him very long. An elaborate plan to regain

contact with Keller meets a cunning counterstroke by the Nazi, who needs Steve in order to effect the release of four war prisoners to further his plans. The play and counterplay be tween Steve and Keller continues with the terrain again an ally of Steve, until the trait comes to its end: an abandoned mine in which lies a disassembled bomber with which the Nazi hope to bomb the Welland Canal. In a climatic struggle the plan is finally frustrated.

As Flynn's sweetheart Julie Bishop is forceful, resourceful and pretty, taking a key part in the strenuous action. Gene Lockhart gives spirit and substance to an important char-
