To the Health Seeker

+ + + +

Perhaps, a "Belief" exists that "everything has been tried and, failed"? Has "faith" subsided to the low ebb of accepting as a fact, the belief that a disease is incurable? Meanwhile, a vague misgiving persists that: Somehow, somewhere there must be an answer to incurability.

Chiropractically, the greatest handicap to health restoration is: So many cherish a traditional faith or belief to the bitter end. Meantime, a simple disease descends into an indefinite and complicated realm of incur-ABILITY. Thus faith and belief hinders, and denies, the natural self-curABILITY within themselves the rightful duty to remedy (meaning: to cure again).

Such statements, of disease, special or general are verified by an exhaustive survey. Over 93.000 persons turned, when disillusioned and disappointed, to Chiropractic (Nature) as a LAST resort.

Some 410 qualified Chiropractors raised no question as to the merits of faith, belief or, the competency of any remedy, to cure again. Nature had preordained that everything was incorporated within. Nature's OWN Remedy substituted incur-ABILITY for cure or marked improvement in 79,000 cases; or, 85% of tiresome, intangible disease names.

A critical reader may question this astonishing record. For the needy there are two basic considerations: The belief that a condition is obstinately incurable as, against the Chiropractic record with thousands of varied, incurable cases. Both cannot be right.

When faith and belief fails to move mountains, Mahomet must go to the mountain. Possibly, the earnest Health Seeker discerns, by the mountainous record, that everything has not been tried; that, high odds yet remain in his

As Mahomet would resolve: If Chiropractic eventually, why not . . . NOW!

DAYS MILD IN JANUARY

Was Not Warm or Dry But Not So Severe as Last Year.

While January, 1944, could be called neither warm nor dry, relatively it was a more hospitable month than January 1943. Last month the average temperature was 42.3 degrees, with a maximum of 53 degrees on the tenth, and a minimum of 28 degrees on the second Maximum temperature during January, 1943, was 51 degrees and the minimum was one degree. At that time unofficia readings in the city showed as low as minus three degrees.

In the matter of temperature, last month's readings were high temperature was 52 de-

The sun showed through for 23.6 hours on nine days last month, while in December there were 12.8 hours of sunshine, and in January, 1943, the city basked in the sun for 67.8

January's rainfall was 8.45 inches, falling during 23 days. less than December's 10.32 inches, and the January, 1943, Barometer readings showed a
