Planes Destroyed and Twenty-six Ships Sunk NEW YORK, Sept. 22 (CP) -The Japanese controlled

Manila radio said today that American carrier plane raids were continued for the second day by several waves of fighters and bombers.

Yesterday the American carrier planes made their greatest raid over the area of Manila Bay, destroying no less than 205 Jap aircraft and sinking or damaging thirtyseven ships, eleven of them right in Manila Bay.

Of the planes destroyed 110 were shot out of the sky when they came up to fight and 95 were destroyed on the ground. Of the thirty-seven vessels sent to the bottom eleven were warships. A floating dry dock and two barges were also probably wiped out.

It was the fifth aerial counter-attack of the war on Manila Bay.

Martial law has been declared in Manila. There are reports of serious internal trouble.

to co-operative movements to Western Frontdevelop new industries. Three methods of public owner ship were outlined—by the provincial government, by

the municipalities and by community co-operatives.
