

has been said, is nothing more than a tradition in the navy. There is no argument to support the feelings of some that it is a necessity. It it is needed of the men working on the under special circumstances, it could be administered when so required just as any medicine or drug ing part time. would be. But it is difficult to see the point in a daily routine of dishing out an alcoholic beverage which may encourage young men to develop a taste for it. spare hours."

Because a bad thing is traditional is a poor reason why it should be maintained. Here is something in which it would seem the Navy might well go modern.

## Washing Dishes . . .

Washing dishes, it seems, is more than a matter of "dishpan hands." It has a great deal to do with the health of the community and the Ottawa Journal, quoting the authority of the Surgeon-General of the United States, says that "it is one, if not the most important of household, restaurant and hotel tasks. His findings are that 60 per cent of dysentery is caused by dirty dishes. Drug store lunch counters had cups with 86,000 bacteria on each, and 7,000,000 the full height of the building. "Eating utensils should be scraped and rinsed before washing. The water for washing dishes by hand should be at 110 and 120 degrees Fahrenheit, or as hot as the hand can stand. In a dish-washing machine, the U.S. public health service advises that the water should be 140 degrees Fahrenheit. After being washed in hot water, the utensils should be rinsed in a chlorine solution or in water at 170 degrees Fahrenheit for at least 15 seconds. Hot dishes will drain by themselves. If wiped by hand, the towels must be absolutely clean, or they will add to the bacteria on the dishes. Utensils should never be put away wet."

**LEARN THE FACTS!** 

## ET'S be quite frank.

When you read - as you probably did during the past few months-that more than 300,000 people in Canada have syphilis, what was your reaction? Did you say, "That's too bad; something should be done about it", and then turn to the comic page? Chances are you did.

But if that article had told you that Tommy Jones,

in Canada. Right in your community. You'll never read articles like that, of course, for these are the personal tragedies that people bear in silence.

So, when you pick up the paper sometime and read, "... there were 5,000 new VENEREAL DISEASE cases reported in this province last year . . . ", remember! These are not cold figures. They represent 5,000 heart-breaking . . . heart-aching situations.

It nerves doubly so! " Smith Block Green 995 and Reservations FRANK J. • Nearly a million Canadian men and women in the armed services of the Dominion, more than a million in war industry, and all the others on the home front - have one goal in sight, a complete and speedy victory.

Teamwork counts as never before, for now the game is in its final, crucial stages. We must all put forth extra effort, use even more of our sesources, to make the finish swift and sure.

It is urgent that in this Seventh Victory Loan we each buy at least one more bond than we bought before. It is our duty to our teammates; our duty to our children who will enjoy the fruits of victory. Let us do our duty gladly, that we may earn our place on our winning team.

Provincial Department of Health for the new, free booklet

"VICTORY OVER DISEASE".

Yes, VENEREAL DISEASE is a serious problem. It's a problem for parents; for taxpayers; for young people on the threshold of life; for everyone.

VENEREAL DISEASE need never strike if we all do our part. If we know the facts. If we use these facts to advantage. If we don't shrug our shoulders and say, "This couldn't happen to anyone in my family." You have a duty to your family and the community.
