#### Misleading Designation

"What, for instance, is the future of quasi news agenci now operating in London under the auspices of various Allied governments?

"There are numerous so-called news agencies of this sort, all of them publicity departments reflecting the views and aspirations of their respective governments.

"It is a pity that any of these departments should have given themselves the description of news agencies, because it is quite misleading.

"A news agency is a news gathering organization run by skilled journalists who, as representatives of the public to whom they address themselves, observe, describe, report or comment on contemporary affairs with complete objectivity and no ulterior motive.

"The function of the two is diametrically different. We must, therefore, watch the future of these quasi news agencies with especial interest lest they should be tempted to follow the unhappy precedent of the French provisional government.

"Reuters and The Associated Press have very properly sent the French provisional government away with a flea in their ear and a similar answer must

# There's something about a GS Soldier that everyone should know!

Whenever you see a Canadian soldier with the GS badge on his arm, honour him as a real fighting man . . . a soldier who believes in carrying the war to the enemy.

The Canadian Army needs more men NOW . . . men like this who are ready and willing to wear this badge of honour.
