New Lease On Life For Girls' Sports Clothes

By VIVIAN BROWN
Associated Press Writer

Re-dye your faded slacks, shorts, blouses and other summer wearables and get another season's wear in a new color.

Don't fret about the fabrics you must tint. All fabric dyes now dye synthetic materials such as acetate rayon and nylon as easily as natural fabrics.

There is a slight difference between tinting and dyeing. For tinting the water should be lukewarm and the tinting is done while you rinse.

In dyeing, hot or boiling water is used and the fabric is immersed in the dye bath for a longer period of time. Usually this depends on how fast you want the color. In the case of outer clothing usually the dyeing technique is employed.

First wash your slacks or play suit. Be sure to rinse thoroughly and remove every available speck of soap.

Empty the dye powder into a basin and pour a quart of boiling water over it, stirring until it is dissolved.

A second vessel should be filled with enough cold water to cover the article. Then pour the dye solution into the dye vessel of cold water.

Place the wet article unfolded in dye bath. Otherwise if it is creased, the dye may not take evenly an the garment will streak.

Heat gradually over stove and stir constantly with a long smooth stick.

Massett-Tow Hill Road Bridges Are Being Rebuilt

Two bridges on the Massett-Tow Hill road, which is used among other purposes for the hauling of clams from the beds of Tow Hill to the cannery at Massett, are about to be rebuilt. One is over Chown Slough and the other over Sangan river, points about half a mile apart some seven miles from Massett. Material has arrived and the work will be carried out by day labor under the direction of Road Foreman Jesse Bridden.

Postwar Radio To Turn on Heat

NEW YORK, July 11 (CP)—After the war you may be able to tune in a stove by turning a radio dial.

This prediction was made at Columbia University in connection with an announcement of a new centre there for industrial research in high frequency electricity.

A tuned-in stove would be an alloy of some sort that would pick up radio waves of short lengths, the same general type of radio waves now used in industry to heat plywood and resins.

The radio stove would pick up the heat by its resistance to a specially chosen wave length. The problem is to find an inexpensive wave-length which would not heat anything except home stoves.

Double or Nothing Chorus of Twins

TORONTO, July 10 (CP)— Louis and Catherine Ferguson of Toronto are identical twins who don't believe in doing anything by halves. They were married in a double ceremony—Louis to Pte. Leslie Cake and Catherine to FO. Hugh Murdock.

They set up housekeeping in adjoining homes. Now they are in the same room in the same hospital where they gave birth to baby daughters at the same time. Their husbands walked the corridors together too.

25 YEARS AGO

July 11, 1919

Lieut. Col. McMordie was appointed police magistrate to replace Alfred Carss who died a short time before. Lieut. Col. McMordie had just returned from overseas.

The German National Assembly at Weimar ratified the acceptance of a peace treaty with the Allied powers. Ninety-nine deputies abstained from voting on the resolution.

A labor federation called the One Big Union was formed in Prince Rupert. Included in it were Fishpackers' Union, the Prince Rupert Industrial Union, the Loggers' Union and the Longshoremen's and Machinists' Unions.
