ARROW BUS LINES**Open Sewer Is
Complained Of**

G. A. Gray, local superintendent of the Canadian National Railways, had a request before the city council Monday night that some action be taken to abate a health nuisance caused by open sewage running from First Avenue into a water course passing the railway shops and round house. The city engineer and health officer had agreed that it constituted a menace to the health of railway employees working nearby.

As a means of removing the nuisance it is proposed that the railway company extend a pipe drain in the yards to the street boundaries whence the city could extend a connection.

**Hospital Made
Good Last Year**

The annual meeting of the Prince Rupert General Hospital which was held last evening received a very satisfactory financial statement for the year 1943, the feature of which was a surplus of revenue over expenditure of \$25,140.16.

The surplus is held due entirely to extra revenue resulting from war conditions here. It will be of use in building up a reserve to take care of such exigencies as the purchase of the military hospital after the war, the making of necessary improvements, increased overhead and payment for undelivered equipment.

THE ORDER OF ST. JOHN**SERVING HUMANITY
Since 1099 A.D.**

The Venerable Order of St. John is the oldest Order of Chivalry in the world. In 1099 A.D. members restored the old hospital of St. John in Jerusalem and provided a body of men, called the Brothers of the Hospital of St. John of Jerusalem, to attend the sick. Later, the Order became a fighting Brotherhood and consisted of Knights to defend the Hospital and the sick, as well as Brothers to nurse them.

Always the Order lived up to its motto—"Pro Utilitate Hominum"—for the service of mankind. Today the Order of St. John, which

controls the St. John Ambulance Association and Brigade, still serves humanity. Through the Association it teaches the science of First Aid and Home Nursing; through the Brigade its members put this instruction into practical use rendering a First Aid and Nursing Service throughout Canada and the British Empire.

Wartime has brought about wide expansion of the Order's activities. But when peace comes this great work will go on, as it has for nearly thousand years, for the Order of St. John is dedicated to serving humanity.

For further information, get in touch with your local St. John Ambulance Association Branch or Brigade Division; or write Commandery Headquarters, 321 Chapel St., Ottawa, Ontario.

**Make Way
for a Sailor!**

SEAMAN TO-DAY gold braid to-morrow... that is the story of many a lad in Canada's growing navy. Every fighting officer in the R.C.N. to-day must start on the lower deck. Promotion depends on initiative, resourcefulness, intelligence and hard work. There are no short cuts. If a man "has the stuff", he can go right to the top.

The whole fabric of Canadian life has been fashioned on this same principle. Any man is free to rise from the lower deck to leadership—whatever his chosen field. How far he will go depends in large measure on the man himself.
