MIDLANDS

Competition in the purchase of Victory Bonds is keen between the two traditionally rival towns of Cobourg and Port Hope. Mayor Burnet of Cobourg has accepted the challenge of Ex-mayor Ewart of Port Hope who is now serving in Italy.

TIMELY RECIPES

CEREAL CUSTARD

2 cups cooked cereal
2 cups milk
2 tablespoons molasses
¼ cup sugar
2 eggs
½ teaspoon vanilla or maple flavourinig or ¼ teaspoon nutmeg.

Mix cereal, milk, molasses and sugar; add beaten eggs and flavouring. Mix well. Pour into a casserole, set in pan of hot water and oven-poach in a moderately slow oven, 325 deg. F for 50 minutes or until set.

Note—For chocolate pudding: blend two tablespoons cocoa with the sugar and a little of the milk and add with other ingredients. Flavour with vanilla. Approximately six servings.

Special Vegetable Problem

For the Victory gardener with a smallish bit of land at his disposal, peas, potatoes and other large, bushy vegetables create a special problem. Unlike lettuce, spinach, beets, beans, carrots, etc., which can be fitted into rows only 15 inches apart if necessary, these other things take up a great deal more room. Potatoes need from 18 inches to two feet between hills or plants, and if one is to have enough garden peas for a meal from one picking then at least thirty feet of row, and preferably fifty, will be necessary.

Most small garden operators, those with only a plot twenty feet or so each way at their disposal, usually decide after some experience to abandon potato growing altogether. And the experts agree that they are wise. The first new potatoes right from the garden at the door are a treat but there are other things that take up less room that are even more satisfying.

In the very small garden one can economize by planting peas in a double row about six to ten inches apart. As the vine develops the rows support each other. They are planted just as early as possible. Because they mature early, in about fifty days, other later vegetables like beets, beans, parsnips or turnips can be planted close beside them, and later when the peas are finished the vines are dug under to give the other vegetables more room.

Showy Flowers

An amazing showing can be made with a few annual flowers and with very little effort. Cosmos, giant marigolds, zinnias, petunias, portulaca, nicotine, alyssum are easily grown almost anywhere in Canada. Some of the larger flowers like cosmos and marigolds and nicotine can actually be used in the place of shrubs. Seeds should be started early and in finely prepared soil. Plants are transplanted to permanent quarters when they are well established with several sets of leaves. Time can be saved, of course, by buying ready started bedding plants. For husky growth, tall cosmos, gladiolus, dahlias, giant marigolds and zinnias should have about two feet each way. Petunias need about a foot apart for best results.

LONDON (AP)—Charles Kendall, 32, a sheet-metal worker, was late for work 73 times in four months and absent 23 times before being hauled into court and fined $225. He was absent, he said, because he caught chills at work and late because his landlady failed to call him.
