### sit at home!

We sit at home where it's nice and safe while our young men face death hourly. They fight with their blood, their lives, for every inch they gain in occupied countries. Not very fair, is it?

So how about squaring up the score a bit? How about doing without and making do with what we have to back them with every last dollar.

Let's turn our savings into Victory Bonds today; then buy an extra bond and pay for it by instalments every pay day. It's little enough to doas we sit at home!
