DAILY EDITION

A complete new trunk sewer line for Section One, the consideration of which was recommended to the should have seen it all spick and LAW. "Paddy" Pentland played donald and W. H. Montgomery Ralph Connor's book "The Doccity council last night by Ald. G. W. Rudderham, is polished for this party. The softly on the piano and later were chosen at a meeting of the tor" with William Farnum playonly one of other major public works projects which RCAF boys had newly sanded LAW. Reigate. Sergeant Iverach Trades and Labor Council to at- ing the leading role. the city of Prince Rupert has to face and on which action cannot be deferred much longer even though ed it and polished all the furthe city's financial position seems to preclude the possibility of action being taken in regard to them.

Waterworks extension, street improvements, tele- carried its own decorative afternoon and the effort on the dorsed by the city council and phone augmentation are among the other things which must receive attention sooner or later. It is a a "Prince Rupert table" was de- am sure. good thing to start looking into them with a view to studying what may be possible.

There has to be preliminary study, investigation and survey of all these matters and the sooner it is undertaken the better. Because they seem to be fairly stupendous propositions under existing conditions should not discourage some preliminaries being commenced even now.

More Than Recreation . . .

Recreational facilities may be very important in the general campaign to make conditions better for the youth of Prince Rupert and curb juvenile delinquency but, as Rev. E. W. Scott has suggested in a lengthy treatise on the matter, they are by no means the sole remedy. Maybe, although they have been stressed so much in some quarters, they are not even the most important. The fact that they are interesing and active makes many unimaginative people think of them as the only thing necessary to keep the young folks going in the best direction.

Mr. Scott very correctly enumerates the breakdown of home life and home influence, lack of constructive adult leadership, the large wages earned by young boys, the leaving school too soon and weak points in education as other factors contributing to the tendency to juvenile delinquency. They are aspects that are entitled to consideration equal to recreational facilities in dealing with the growing seriousness of the spread of juvenile delinquency.

A Second Theatre . . .

It was interesting to learn in a letter written to the city council last night by D. G. Borland, the local! manager, that Famous Players-Canadian Corporation is not only actually interested in the building of a second theatre in Prince Rupert but is ready to go ahead with it just as soon as certain governmentimposed obstacles now standing in the way are removed. Evidently, the most serious of these obstacles is the inability to secure a federal permit for the project. Otherwise, Mr. Borland intimates, his company has made other necessary arrangements and is all ready to proceed.

Of course, the present condition of line-ups at the lone theatre in the city, about which the council complains, would be very much relieved if there were a second theatre. It was shown how line-ups were eliminated by augmenting the post-office facilities in Prince Rupert. Anything that could be done to encourage Famous Players or any other interests to establish another theatre in Prince Rupert might well be done. After all, the second theatre is the thing we are interested in rather than who should or should not establish it.

Cold Wave Coming Soon!

We will be closed for one week while attending the demonstration for the new sensational COLD WAVE, a permanent without heat, pads, or machine. Watch for it!

... it changes constantly

BANKING IS ADAPTABLE

to meet this country's changing needs

FOR INSTANCE ...

Ever wonder where your ration coupons go? The answer is that your grocer takes your sugar, butter and other coupons to his bank, which acts as the government's agent in identifying and accounting for millions of spent coupons. This vast bookkeeping job known as "Ration Coupon Banking" - is just one of the new, additional assignments which the banks have assumed as part of their wartime service.

Another is the payment, on behalf of the government, of certain subsidies arising out of wartime price control. Still another is the handling of exchange transactions as agents of the Foreign Exchange Control Board.

At the same time the banks have arranged facilities to serve military establishments and new war-industry centres alike.

Through loans to industry and agriculture, they have helped to increase the supply of raw materials, weapons and food.

They have acted as issuing agents for approximately \$5,700,000,000 worth of Victory Bonds and War Savings Certificates, as well as lending direct financial aid to the government through short-term loans.

... All this in the face of widespread staff changes resulting from enlistments of 8,360 trained bank employees.

The war emergency has proved the readiness and ability of Canada's banks to adapt their services to new conditions. It has proved, once again, the strength of your banking system, which is providing a firm base of financial service for the greatest economic effort in the nation's history, and will with equal resourcefulness meet the challenge of the years ahead.

THE CHARTERED BANKS OF CANADA
