It is interesting for us here to know that the "Victory Conference" is concerning itself in large measure with the Pacific situation.

The leaders will be able to consider the problems before them with first hand knowledge-Churchill through having just recently been in Europe and Roosevelt after haoving been in the Pacific area. They are in good position to weave the culminating pattern of war and draw the design for the peace which may have come ere they meet again after the second Quebec.

PUBLICITY IMPORTANT ...

The publicity blackout which has shrouded the port of Prince Rupert and this part of the coast since the war began and which has been intensified since Pearl Harbor threw the Pacific arena into the maelstrom of hostilities should not last much longer. Indeed, there is already a tendency to ease up on the censorship regulations which have made it impossi- IN THE MATTER OF THE ESTATE ble for us to tell of the great developments which have occurred in connection with the final recogni- His Honour Judge Fisher. As we have suggested before, organization and development of publicity in many forms and on a sustained basis is something which we are well advised to be thinking about without further delay. We can do any amount of planning and thinking about post-war activities here but it will all be of little avail if we hide our light behind a bushel.

Prince Rupert has been sadly lacking in publicity- British Columbia, I was on the 7th mindedness in the past. which has been operated continuously under the control of Messrs. P. S. Ross & Sons on behalf of the Custodian since December, 1941, and it is the desire of the Custodian that the undermentioned assets be sold on a going concern basis.

The company is the registered owner of 35 sections of old Crown Grant land, containing approximately 22,000 acres and situated in Rupert District, Vancouver Island, and adjacent to Port McNeill on the East Coast.

Of this approximately 50% is listed as Cedar and the balance principally Hemlock and Balsam with a small quantity of Spruce, of good quality and on accessible logging ground. The Company's title is such that there is a Royalty payable to the Province of British Columbia of fifty cents per thousand feet, British Columbia Log Scale, on all logs when cut and removed from the timber tract and such logs are exportable subject only to war restrictions.

The Company also owns a log dump, freight wharf, two foreshore leases from the Crown and a Diesel-engined boat used for booming purposes. Assignment of the foreshore leases is subject to the consent of the Crown.
