PRINCE RUPERT . . . BRITISH COLUMBIA.

G. A. HUNTER, Managing Editor

DAILY EDITION Wednesday, Oct. 18, 1944

Another Alaska Highway . . .

There is no way of telling what might transpire from the visit of the Prince Rupert Chamber of Commerce delegation to the Alaska centres. Undoubtedly there will be an increase in understanding among the people of this city and the Alaska towns, and it is possible that a return visit by an Alaska delegation sometime in the near future may result.

Among the important points which they will un- expect to find a young woman doubtedly impress on the Alaskans is the fact that when the Skeena River highway opens for public against a background of black use it will not only be a highway for eastern tourists satin furniture and white satin coming west, but also an avenue for Alaska motorists going east. In short, another Alaska highway.

There must be thousands of vehicles in Alaska life. wearying of running the urban routine, with no Tony de Cathelineau from seven months. chance to travel any great distance on an open road. EIFFEL TOWER WOULDN'T DUCK

WITH R. C. A. F. OVERSEAS, Oct. 18 (P)—Recently, Canadian Spitfires formed the cross of Lorraine over Paris.

The R.C.A.F. "City of Oshawa" squadron, led by Squadron Ldr. F. McElroy, D.F.C. and Bar, of Kamloops, B.C., swooped low over the central boulevards in perfect formation. Below crowds of French people gazed upward and waved. The squadron crossed it in formation four times. As they left, they had to pull upwards to avoid crashing into the Eiffel Tower.

Dead as a Dodo. The Dodo is dead. So is the idea that all parents should not be interested in Better Parenthood Week.

Boy, am I getting fat! And no wonder. "The old man" (he's the depositor) keeps building me up. If he'd only let me "go active" in Victory Bonds! Makes me mad to think how much I could help!

Just look what I could buy . . . stacks of anti-aircraft shells :: . vital parts for a Mosquito Bomber . . . or enough smoke bombs to hide the movements of gallant Canadian troops. But why go on?

Did you see what it's going to cost Canada to run this war this year? Six billion dollars! We can only meet that cost if everyone goes all-out to help! And that includes even "little me"!

Maybe if I hang this up in the old man's office, it'll give him the right idea. As a Victory Bond I'll pay good interest and be a swell nest egg for post-war days. The sooner he lets me "go active", the sooner we'll win!

If I could only "enlist" here and get to wear that uniform That's the kind of battle dress I ought to have. Believent when our boys are fighting the war's most critical battle it's not fair for me to shirk!

PUT YOUR SAVINGS "ON ACTIVE SERVICE"

History's most terrible war is reaching its climax

Gallant Canadians are fighting without shrinking from the deadly fire of a desperate and still powerful enemy. So we at home must not shrink from paying the cost of war in money-no matter how high it is.

Today the cost of war on all fronts has mounted to staggering sums! To meet it, every last Canadian who can possibly do so will need to buy Victor Bonds. And all must manage somehow to buy one more than before!

This certainly is little to ask. For Victory Bonds offer Canada's safest, soundest investment. At matuniy your money will be returned. And in the meanting you receive 3% interest.

Still—it's entirely up to you to decide whether of not you'll buy your full share. But before you decide -remember . . . every man overseas is fighting for you

Will you volunteer to put your savings into Victory Bonds to fight for them?
