"Wrap it well and mail it early," is the advice of the Fleet Mail Office to Canadians sending Christmas parcels to men and women serving in the Royal Canadian Navy at home stations, at sea or abroad. Last year more than half a million Christmas parcels were handled. One of the chief headaches is poorly wrapped parcels which collapse before they reach their destination. Here Donald Giles, 15-year-old Sea Cadet, employed as a messenger at the Fleet Mail Office in Halifax, checks out a bundle of re-wrapped parcels with Wren Lillian Paxton, of Port Arthur, Ont. The Fleet Mail Office advises the use of tough wrapping paper and strong string and warns against mailing anything packed in glass, such as peanut butter of preserves. The latest mailing dates at which parcels can be sent with any hope of reaching troops by Christmas are as follows-October 5: Middle East Area-Egypt, Iran, Iraq, Syria, etc.; October 10: Central Mediterranean Area; October 25: United Kingdom and France.

WANTS BOOKS FOR SCHOOLS

Principal Takes P.-T.A. Appeal Direct To City Council

A display of instruction books quiry. for school children decorated the reporter's table in the city council chamber last night as S. A. "Modern teaching methods require modern tools and our tools are books," Mr. Cheeseman deciared. He added that the present textbooks prescribed by the department are not in line with the modern trend. "The Department is working

on a revision of the list of books for official use in schools but it may be a year or two before it is complete." Last year the P.T.A. raised

over \$500 for purchase of books and sports equipment in city schools, and this year they have set their goal as \$1,000. The absence of a library at the

new Conrad Street School has increased the demand for funds, Mr. Cheeseman said. "Has the School Board been

approached for a donation?" Alderman Hills asked as he and other members gathered around the book laden table. Mr. Cheeseman did not know

if the Board had been asked for a donation. "Even though the money ali comes from the same source 1
