Home Recipe

Apple, Grape, Quince, Crabapple and Sour Plum Jelly

Wash and cut apples, crabapples, plums, and quinces in pieces; do not peel or core. Wash grapes and remove stems.

2 Place fruit in preserving kettle and add enough water to be seen through the top layer of fruit.

3 Cook slowly until fruit is soft and mushy and juice is drawn out. Crush with a potato masher.

4 Drain several hours or overnight through a moist jelly bag. Squeezing the bag increases the yield of juice and gives a more pronounced flavor but a less clear jelly.

Measure juice. Do not make up more than eight cups of juice at one time.

Measure 3/4 cup sugar for each cup of juice and put sugar to warm.

7 Boil juice gently for three minutes. Test for pectin. 8 When pectin test is obtained, add the heated suger. Boil rapidly, three to ten minutes, testing repeatedly until jelly sheets from the
