British Columbia is still divided into two game districts, eastern | ber of coots and snipe. and western. The eastern district embraces about nine-tenths of the province, leaving the western district only a narrow strip bordered on the east by the summit of the Cascade Mountains, and running from the United States boundary to the Alaska boundary where it points out into the Pacific Ocean just north of Dundas Island.

Since any coast hunter will probably swear that the best of the game birds invariably pass through the western district, we will politely ignore the rest of Canada and investigate hunting prospects close to hand.

#### Snipe Season Oct. 14 to Dec. 14

In fact, we will go even further. We will start off with that part of the western district lywhich passes through the middle of Princess Royal Island.

Here you can pepper away at Wilson's Snipe from October 14 to December 14, and bombard Black Brant, Canada Geese and HALIFAX, Aug. 15. - Jan Snow Geese from December 2 to

up with it. "I am against right and left extremes," he said, but added, "I stand firm for our rights as set out in our status acts and

the Stature of Westminster. No statement could be more reasonably national than that; none could more emphatically bring man to a fair consideration of maintaining within the Commonwealth a sane degree of cohesion.

Premier Smuts admitted that there were within the Commonwealth some who regarded Commor we aith ties too strong, and who were working for their relaxation, and he definitely stated that this tendency had been carried too far in Eire and he deprecated its acceptance by the ultra-Nationalists of South Africa itself. In opposition to those who held that Commonwealth States could become republics and take advantage of dominion status when it suited them. Premier Smuts refused to take Eire as example. He frankly pointed out that Eire hrself was only able to maintain her present attitude because she "stands sheltered behind the British Fleet which draws a wall of might about her."

The South African statesman was speaking primarily to a committee of his own Parliamnt, but his opinions will certainly be weighed by statesmen of the

Empire all over the world. When he added that, in respect to the argument in general put up by dominion isolationists: "I do not see how they could gain. more liberty, more authority or nationality by a further loosening of ties." he said something which will displease some people, even in Canada.

But the unspoken question which lay by implication behind the whole of this elder statesman's speech, as to how individual dominions are in the future to maintain any sort of strength or independence, except by close co-operation and cohesion between themselves and with the Old Country, is going to be hard to answer.
