### THE SOLID FUEL CREDIT PLAN

To help householders purchase coal now . . : well in advance of actual needs . . . the Government-sponsored Solid Fuel Credit Plan is being put into operation again this year.

#### FEATURES OF THE PLAN

- 1. You should order your next winter's coal from your dealer today.
- 2. You may pay for it in equal monthly instalments, over a period to be arranged with your dealer. All payments are to be completed by May 15th, 1945.
- 3. All arrangements are to be made with your dealer.
- 4. You simply fill in a Credit Application Form and sign a note for the value of your coal purchase. The note is financed by your dealer through his bank, under the Government-sponsored Solid Fuel Credit Plan.
- 5. You pay a regular interest charge on unpaid balances for this convenience. For example, on a purchase of \$80 worth of coal to be paid for over a period of six months the interest charge - the only additional charge you pay - would amount to \$1.44. 6. The value of the coal bought by any
- individual under this Plan must not be less than \$50 and not more than \$250. 7. All coal purchased under the Plan

must be delivered into consumers'

bins not later than September 30th, 1944. 8. Your dealer will make delivery to you during the coming months as

and when he can.
