# COULD HE AFFORD TO JUMP?

HE knew that he was a vital unit in Combined Operations. He knew that as the attack mounted in fury he would be called upon to fight harder... risk more. He was given a job to do and he did it. All of us are vital units in "combined operations" too. Canada must have more money to maintain and intensify the attack. All of us must buy more Victory Bonds than before. Can we afford to? Could the paratrooper afford to jump?

# We sit at home!

We sit at home where it's nice and safe while our young men face death hourly. They fight with their blood, their lives, for every inch they gain in occupied countries. Not very fair, is it?

So how about squaring up the score a bit? How about doing without and making do with what we have to back them with every last dollar. Let's turn our savings into Victory Bonds today; then buy an extra bond and pay for it by instalments every pay day. It's little enough to do—as we sit at home!
