WHAT PRICE SAVINGS?

THE HOPES AND DREAMS of a lifetime, gone up in smoke! Wiped out in a few minutes before their very eyes! And it's too late to start over!

That little house was the symbol of their dreams, the result of years of saving. Then came 1940 and the blitz. They were lucky, then. Others lost, but their home came through the merciless pounding of those terror-stricken months. They're not so lucky now. Their dream has been smashed by a bomb.

MAYBE you're dreaming, too? Perhaps there's a growing balance in the bank, earmarked for a little home of your own. But, while you're waiting and working, are your dollars working, too? Are they working to put an end to a tyranny that is robbing millions of their dreams, their hopes, their lives?

The money you are putting by for your future can help now to bring peace to the world—help bring relief to those millions who have lived in peril for so long. Every dollar you invest in Canada's Seventh Victory Loan is doing double duty—giving you a stake in peacetime tomorrow, bringing Victory closer! Don't hesitate! Put your savings into Victory Bonds!
