L. A. Important Message present needs in a manner which would be compatible with the postwar situation when it is to be assumed plenty of buildings will be available.

An Example From Us...

President Roosevelt goes so far as to admit that, in other parts of the province Watts, S. E. Parker, G. R. s in his proposed national service act plan, he is copy- are not so scrupulously reported Blackaby, J. E. Little, D. C. Mcing the pattern of Canada, Australia and certain so naturally the provincial rec- Rae, C. G. Minns, J. W. Nicholls other British Dominions. That may be encouraging ord is lower." to those responsible for Canada's selective service set- one of gonorrhea over syphilis up in which President Roosevelt must see some good is revealed by a break-down of tacted in the city, Dr. Knipe points although many of us in this country seem to the figures. Out of the city's have difficulty in seeing any virtue in it, particularly venereal rate of 14.9 cases per if it causes a little thought or bother.

The general principle of our selective service set- hea. The other 29 per cent, or up is, no doubt, good enough although sometimes 4.3 cases per 1000, had syphilis, undesirable, unwieldy and seemingly pointless complications are appended to it.

These are difficult and changing times and the city last year. The seven measures that would meet a situation today might doctors in private practice treatbe entirely unsuitable for a condition six months ed the other 53 per cent. hence that are entirely unpredictable.

It is often difficult to discern the difference between inexcusable bungling and earnest striving.

Department of Labour NOTICE

EMPLOYERS OF TECHNICAL PERSONNEL Your attention is directed to:

SELECTIVE SERVICE REGULATIONS -Order in Council 246, Part III, Technical Personnel, Section 305, Subsection 1, reading as follows:

"All persons employing technical personnel from time to time, at the request of the Minister (of Labour) shall supply him with such information as he may specify with reference to their present and future requirements of technical persons for essential work."

Where such requirements include any engineering or science students who, through graduation from a recognized University during 1944, become technical personnel, it shall be the duty of the prospective employer to notify the Minister forthwith of such needs through the Wartime Bureau of Technical Personnel.

The information to accompany such notification of requirements shall include,

The anticipated number of prospective employees,

2. The nature of proposed occupation of each. 3. The type of training deemed best adapted to the

occupation proposed. 4. Remuneration with respect of each position to be

The filing of such requirements shall be no guarantee of their

being filled. Each case will be considered on its merits and therefore such information should be submitted as will provide a basis for decision as to the labour priority of the work involved. University courses which lead to graduates being classed as technical personnel include all branches of Engineering, Agricultural Science, Architecture, Forestry, Veterinary Science, Household

Science courses which lead to a degree and various General

Science and Honour Science courses (Mathematics, Physics, Chemistry, Biology, Geology and other natural science courses). Prospective employers who fail to submit their requirements by February 15th, 1944, shall be deemed not to need the services of 1944 graduates in engineering and science courses and no provision can be made for requirements

filed after that date. HUMPHREY MITCHELL Minister of Labour
