PRINCE RUPERT BRITISH COLUMBIA

NEW BUILDING—

Edward Lipsett Company Expanding Its Operations

After 50 years of servicing the fishing industry in British Columbia, the Edward Lipsett Co., which has an important branch in Prince Rupert, is expanding operations to take care of the needs of the industry on the coast by dedicating a new building on Powell Street at Clark Drive, Vancouver. The new premises of the fish net division of Edward Lipsett Ltd. is the introduction of the first building of its kind in North America. Here will take place the scientific processing of fish nets to ensure durability. This involves the application of preservative treatments such as coal tarring — cutching (with tanning bark) all manner of deep sea fishing nets. Here supplementary treatment which includes tarring of the wood floats and the waxing of net cork floats will be carried on. In addition to new net building and processing, repairing, reconditioning and rebuilding of used nets will take place in the off-season.

These premises will be the new home of the Lipsett Engine and Manufacturing Co. Ltd., agents for the famous Murphy diesel engines. It will also be the service depot for Lauson air-cooled motors—and the Lipsett division for the manufacturing of brass fittings requir-ed in the fishing trade.

FOUNDER

EDWARD LIPSETT — founder and owner of the firm of Edward Lipsett Ltd., known in manufacturing circles throughout Canada and the United States. Born in Cambridgeport, Massachussets, on May 31, 1867, the future Western Canadian industrial leader served in his youth with the famed fishing fleets off the rugged New England coast—became a sail maker in that fitting and expert environment and completed that training in the great New England sailing ports before moving to Vancouver when the city was less than five years old and boasted only a population of some 12,000 people. It was in 1891, more than half a century ago, that the firm was founded in a sail loft at 69 Water Street, by Mr. Lipsett, catering solely to the canvas merchandise trade of early days in Vancouver.

MANAGER

W. E. DRAKE—general manager of Edward Lipsett Ltd., who has been associated with the firm for more than 34 years, having spent his entire business life with the organization. Mr. Drake was born in St. Stephen, New Brunswick, on August 23, 1895, and arrived in Vancouver just three years later. In January of 1910 Mr. Drake joined the firm as an office and errand boy and began the life-long association. When war came to the world in 1914 the youthful employee joined the Canadian Expeditionary Forces and served overseas until, four years later, he returned to Vancouver and resumed his career on the firm's staff. With this notable exception, Mr. Drake has been continuously in the firm's service since boyhood.

TREASURER

KENNETH CREER—secretary-treasurer of Edward Lipsett Ltd., is widely known among Western Canadian accountants. Mr. Creer came to Canada from Plymouth, England, where he was born in January, 1908. Following association with the firm of Helliwell MacLachlan Co., chartered accountants, Mr. Creer joined the firm in March, 1943. During 1941 and 1942 Mr. Creer served as president of the Chartered Accountants'

MASSACRE OF LIDICE

"Hitler's Madman," Impressive Picture, Coming to Capitol Theatre This Wednesday

The ruthless destruction of the little Bohemian village of Lidice in world-shocking reprisal for the slaying of Reinhard Heydrich, "Nazi Hangman," forms the basis of the picture "Hitler's Madman," which comes to the screen of the Capitol Theatre here this Wednesday only. While, as might be expected, shudders predominate with Nazis at work, there is also a human love theme against the background of bloodshed by Alan Curtis and Patricia Morrison.

The role of the "Hangman" is vividly portrayed by John Carradine. The death bed scene in which he recants his allegiance to Hitler is excellent acting. Howard Freeman is effective in the part of Heinrich Himmler, hated Gestapo head. Ralph Morgan is a wealthy appeaser. Edgar Kennedy is the village tramp while Al Shean is a beloved priest and Tully Marshall, a courageous teacher.

With the Forces

News of the Men and Women on Active Service
(Contributions Welcome)

A young doctor whom a few Prince Rupert people may know and who is particularly well known at Ocean Falls where he went to school as a lad is Capt. James Stenstom, son of D. G. Stenstom, the former resident manager of Pacific Mills, who is stationed at the military hospital at Terrace. Prior to enlistment in the Royal Canadian Army Merical Corps, Capt. Stenstrom had started the establishment of a practice at Victoria where he intends to return after the war is over. Another of the Stenstrom boys, although a doctor of science, is serving as an air officer with the Royal Canadian Air Force. Mr. Stenstrom is now at Ottawa with the department of timber control.

RED CROSS SHIPMENT

Another shipment of goods produced at the local Red Cross work room has been made, including articles as follows:

Knitted Goods— 15 sweaters, 51 pairs service socks, five pairs gloves, ten Balaclava helmets, 5 ribbed helmets.

Women's Auxiliary Service — Two pairs of women's sockees.

Hospital Supplies — Eight bed jackets, four dozen property bags, three and a half dozen face cloths, 16 amputation covers, 3540 compresses, 200 swabs, 91 surgical masks, 70 medium pads.

Junior Red Cross—Four dozen facecloths, one navy scarf.

Civilian Clothing, Grade A—22 child's combinations, four waist and panty sets, nine girls' dresses, three women's coats, six women's gowns, three hatchways, eight pairs children's pajamas, four baby gowns, 15 women's knickers, 10 children's sweaters, three pairs of socks, five girls' sweaters, one infant's bonnet, one infant's vest.

Civilian Clothing, Grade B — 13 quilts, one single quilt.

Greek Relief—Two children's coats, 66 boys' vests, 18 women's slips.

During July and August the workroom will be open Tuesday, Wednesday and Friday afternoons, closing Mondays and Thursdays. It is hoped that there will be no let-down in the knitting as it is urgently needed.

DOG SHOOTS DOG

PERTH, Scotland, (CP)—Gamekeeper Harry Farquharson shot a fox at the bottom of a cliff and climbed down to get it, carrying a dog under his arm and leaving his gun and another dog on the summit. The dog left behind stepped on the trigger and fired the gun which killed the dog. Farquharson was carrying but left him unharmed.

SALE and DELIVERY OF HOT AIR FURNACES

Temporarily suspended—commencing June 20th

Due to shortage of materials and labor, the supply of hot air furnaces will not meet overall requirements for replacements and new buildings, by a wide margin.

To ensure that the limited supply is made available to those most in need of them, the sale and delivery of hot air furnaces to builders, building owners and other users is temporarily suspended—pending a detailed inventory of stocks throughout the country. This temporary suspension does not apply to sales and deliveries by manufacturers to wholesalers, retailers and other established sellers of hot air furnaces—who may purchase for resale, but who may only sell to users against Certificates of Essentiality.

Manufacturers — Importers — Wholesalers — Retailers ARE REQUIRED TO REPORT

DELIVERIES IN 1943 AND 1944, AND STOCKS ON HAND:

MANUFACTURERS:
Each manufacturer or importer must report to the Administrator not later than July 10th, 1944, the following information:

(a) A list of the names and addresses of all the customers to whom he made deliveries during the year 1943, and the number of hot air furnaces delivered to each customer (i) in the aforesaid year 1943, and (ii) during the first six months of the year 1944.

(b) Each manufacturer or importer who sells any hot air furnace or furnaces to a user (i.e., to building contractors or other users of hot air furnaces as opposed to retailers or others who buy for resale) must place a distinguishing mark against the name of each customer on the list referred to in paragraph (a) above to indicate that they are users and not retailers.

(c) His total production or importation of new hot air furnaces during the first six months of 1944.

(d) His stocks of manufactured hot air furnaces on hand as of June 30, 1944, not including "retained stock".

(e) The number of hot air furnaces held in "retained stock".

WHOLESALERS AND JOBBERS:
Each wholesaler or jobber dealing in hot air furnaces must report to the Administrator not later than July 10th, 1944, the following information:

(a) A list of the names and addresses of the customers to whom he made deliveries during the year 1943, and the number of hot air furnaces delivered to each customer (i) in the aforesaid year 1943, and (ii) during the first six months of 1944.

(b) Each wholesaler or jobber who sells any hot air furnace or furnaces to a user (i.e., to building contractors or other users of hot air furnaces as opposed to retailers or others who buy for resale) must place a distinguishing mark against the name of each such customer on the list referred to in paragraph (a) above to indicate that they are users and not retailers.

(c) His total stocks of hot air furnaces on hand as of June 30, 1944.

(d) A list of the names and addresses of his suppliers, showing separately with respect to each, total deliveries received in 1943, and total deliveries received during the first six months of 1944.

RETAILERS: Each retailer dealing in hot air furnaces must report in writing *to the nearest office of the Board* not later than July 10th, 1944, the following information:

(a) The number of hot air furnaces at close of business on June 30, 1944.

(b) A list of the names and addresses of his suppliers showing separately with respect to each (i) total deliveries received in 1943 and (ii) total deliveries received during the first six months of 1944.

(For the purposes of this Order, Retailers include plumbers, tinsmiths, and heating contractors who buy for resale).

REGULAR REPORTS of stocks on hand and deliveries must be made monthly by Manufacturers, Wholesalers and Retailers, on or before the 20th of the following month, starting August 20th.

APPLICATIONS FOR CERTIFICATES OF ESSENTIALITY for the purchase of hot air furnaces will be available after July 1st at Regional and Local Offices of the Wartime Prices and Trade Board. Applications must be completed by the person who owns the building in which the furnace is to be installed. Certificate will be granted in accordance with available supplies in each area, and only in cases of essential need.

No retailer may accept an order unless a Certificate of Essentiality has been presented.

Complete information and instructions are being sent direct to all sections of the trade. If not received by June 30th, applications should be made at the nearest Wartime Prices and Trade Board office.
