#### HELP YOURSELF

Who are the public? Why, they are your friends, acquaintances, men and women in and out of the news, and yourself and family. Too frequently this fact is overlooked.

If a newsgatherer should meet 50 persons a day over the new Skeena Highway in any city and should put the inquiry, "Any news?" on their return to Kamloops most of those 50 would reply, "No-o-o, I guess not," where they will make their home, after spending a wedding holiwhen at the same time they might know of a num- day of three weeks at Lakelse ber of interesting happenings that would help make Lake. the paper just what everyone wishes it to be, a paper full of the news of the community and district.

So if the item you expect to see in print is not day at that point. there, it should be your concern to see that you advise The Daily News' staff of the next matter of in- er has given place to cool terest or bit of news that comes your way.

#### CIVIC HISTORY MADE

Another chapter in the city's civic history was vovvvvvvvvvvvvvvvvvvv God is going to see us through, written last night as mayors and aldermen, past and Old English present, gathered to pay tribute to Mr. and Mrs. Frank Vickers prior to their departure for England to make their new home.

At a testimonial dinner, speakers praised the couple as outstanding citizens of this community and went on to eulogize on the contribution made to the city's administration by Mr. Vickers, retiring treasurer, since he joined the city hall staff in 1919.

Deep sincerity was evident in the words of each speaker.

We can expect action from the letter of Attornev-General R. L. Maitland to Minister of Health Ian Mackenzie asking that Digby Island Hospital be converted into an institution for the care of venereal disease patients among the Indians.

#### THE GALT LAKES

Salt Lakes across the harbor have long been an ideal swimming and picnicking ground. Therefore it is wise to treat it with respect and vigilantly guard | vinc cronce that area against fire.

Picnickers started a fire there last Sunday and went away to leave the flames to burn around a stump. Fortunately, little damage other than marring of the tree trunk resulted.

If we are to enjoy the grounds around the Salt Lakes to the fullest we must be alert to the havoc unattended fires can do.

Those who enjoy the Sunday band concerts should be happy to comply with the request that they take care when on the Court House green not to damage flowers or plants and not to litter the grounds with paper.

JOHNNY'S

paratus here. By BONNIE WILEY

SEATTLE, Wash., Aug. 2 Mr. and Mrs. Wilber Arketa II children. They have 25. Just down from Alaska, Mam

ma and Papa Arketa brought little Arketas with them, 18 ad opted and two of their own. The sible Mr. and Mrs. William Brass, 733 others have just sort of "moved 6th ave. w., received congratula- in," temporarily. The three older boys work in war plants. Old

aska from Montana seven years ago to do missionary work, "is ried in Winnipeg and within a entitled to a good home." So wide their arms and in runs in New Mexico. another little waif.

"Why, up in Juneau we had 40 or 50 younsters and once we had 14 bottle babies, all at one time," motherly Mrs. Arketa

dren were brought to us by the police when their parents deserted them. Some we found. neglected and hungry in the Mr. and Mrs. W. Robinson re- slums. We've put weight on

part Alaskan Indian. Father Arketa, who supports his evergrowing brood by selling his hand-tooled leather work, part Iroquois.

"Everybody is so kind," Mrs Arketa beamed. "It takes lots of food, 25 quarts of milk a day.

Feeling that their big brood needed more fresh vegetables and more sunshine, the Arketas loaded the children onto a Seattle-bound ship and set forth. After the home is running smoothly with someone charge, they'll go back to Alaska for more missionary work.

On Sunday, the entire brood attends Sunday school in the front room, and the young worshippers also hold daily prayers.

## Pretty Wedding Is Solemnized

A wedding of considerable lo-Oakley McAmmon, the mony being performed by Rev. C. E. Motte.

The church was prettily decorated and was filled to capacity by many friends of the young

After circling the town several times in cars, the couple received their friends in the Anglican hall

The hall, too, was taxed to capacity to accommodate all attending to wish the couple much happiness.

Dancing was enjoyed later. LAC. and Mrs. McAmmon left by Tuesday morning's train for Ontario where they will spend honeymoon at the home of the groom.

Herbert Welch, for the past 25 years provincial tax assessor for Omineca assessment district first at Hazelton and later at Smithers, has finished his services with the government and was superannuated July 31.

Mr. and Mrs. Welch have purchased a home in West Vancouver and will be leaving shortly to take up their permanent home there.

Both will be much missed in Red Cross work at Smithers as they have been active in this work since the start of the war. Their many friends of long standing throughout the whole

district are expressing regret

over their leaving the north. Another old timer, who will be completing his active service at the end of the present week, is Harry Johnson, veteran locomotive engineer on the C.N.R. between Prince Rupert and Prince George since the start of

operations on this line 30 years

Mr. Johnson was at one time running out of Prince Rupert but for the past 20 years he has made his home in Smithers. Mr. and Mrs. Johnson will continue to reside in Smithers.

ean. Scientific knowledge suggests that we are only now beginning to understand how valuable this resource is and how many things we can do with i and make of it. I predict that n the not very distant future forests of Canada are the most the bulk of our forest products we have the intelligence to manage and conserve our forests wisely and the intelligence and industry too to preserve them from three great enemies-

#### I Have Your Coal Bin Ready

If you are getting both hard and soft coal separately, have the necessary spaces ready and cleared for each. The delivery man is going to be overworked-do everything to speed up his job.

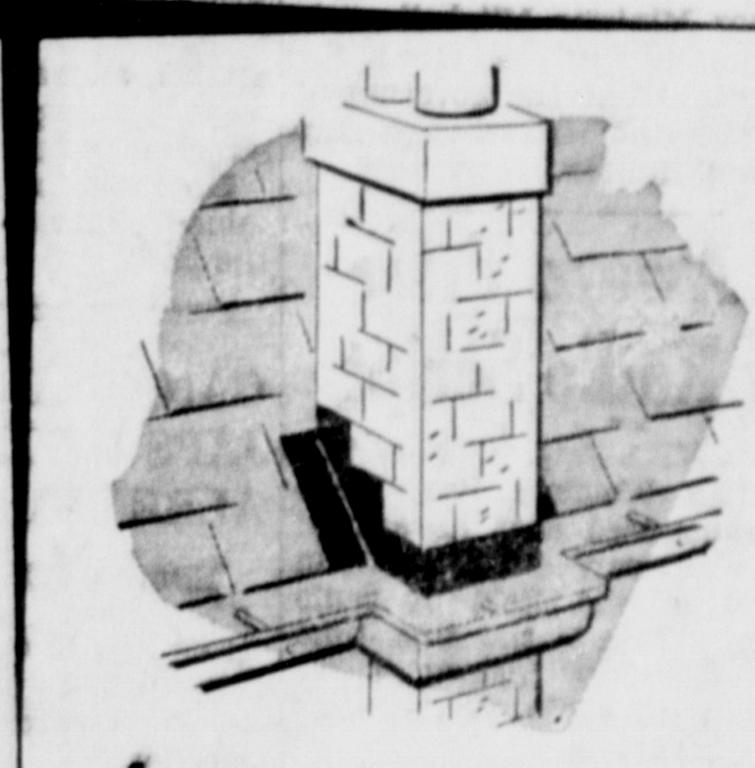

#### Z Clean Your Furnace

Have your furnace thoroughly cleaned before lighting the fire. Scale should be removed from heating surfaces in furnace or boiler. Chimney and smoke pipes also should be cleaned.

## 3 Repair Heat-Stealing Leaks

You can save fuel by caulking the space between the brickwork and the window or door frame. If windows open too easily, use weatherstripping.

### 4 Keep Your Chimney Clean

If your furnace draft is poor, it may mean your chimney is obstructed and needs cleaning or repairing.

If you have not already ordered your fuel, do not delay another day. Ask your dealer to deliver your quota, and accept whatever suitable fuel he may have available. Delay until cold weather sets in may mean a wait of days, or even weeks. Order NOW.
