FOUR 'Ations are leagued together to make Irradiated Carnation Milk a preferred milk for your bottle-fed baby. Evaporation removes part of the natural water, for convenience and economy. Irradi-ation enriches the milk with extra "sunshine" vitamin D. Homogeniz-ation breaks up the butterfat globules and distributes them evenly, for uniformity in feedings. Steriliz-ation insures safety and a readily digestible soft curd. And they all add up to give you Carn-ation.

Ask your doctor about a Carnation Milk formula for your baby. Write for free book, "Your Contented Baby." Carnation Co., Ltd., 470 Granville St., Vancouver.
