He's Back...

· As a fighting man he did more for us than we can ever hope to repay. Yet all he asks in return is a fair chance to find and fill the right civilian job.

The least we can do is to see that he gets this help . . . see that every young veteran is fitted for the future through the Government's Rehabilitation Program.

Under this program returned men and women are trained, equipped, and directed into farming, factories, business or professions according to their ambition and ability. Some need hospitalization, some pensions—all get gratuities and re-establishment credits.

It's going to take a lot of money to carry to completion such a vital and comprehensive plan. Every Canadian will have to dig deep to raise the sum that's needed.

Now that the shooting and shouting are over, let's tell these fellows. that we are still interested! Let's come through and make their training for the future our first and most important job!

Get behind the 9th Victory Loan!

HERE'S A YOUNG MECHANIC who learned his trade under Post Discharge Re-Establishment, and is now a skilled operator. The dollars you invest in the 9th Victory Loan will help others to become as happily re-established.

THIS DISABLED LAD is getting the very best of care. Your 9th Victory Loan dollars will make it possible for all such cases to carry on until they can get back on their feet again. Everyone must help. It is the least we can do.

BY SUPPORTING THE 9TH VICTORY LOAN you help young veterans to take up their studies where they left off. Canada recognizes the need to give such returning men and women every opportunity to complete their education.

THIS "VETERAN" FARMER was once a bomb aimer and he planted bombs for victory. What he sows today will add to the growth of Canada. You can help many young farmers like this by backing the 9th Victory Loan.
