## Modern Etiquette By ROBERTA LEE

Q. How can a guest test the breeding of a family and determine whether the family is worth cultivating?

A. Probably the real test is the manners of the children. If the child is well-bred, if he waits until the guest is served before eating, if he doesn't jump up from the table and run away, if he doesn't interrupt while others are talking, it reflects good breeding.

Q. If a woman is eating in a restaurant, would it be all right for her to place her purse and gloves on the corner of the

A. No, she should hold them in her lap. Q. Is it necessary to acknowledge an invitation to a lun-

cheon? A. Yes, always, and promptly.

• Hitler boasted that he would smash Russia in three weeks...Ivan's courage, resourcefulness and fighting skill have already spun those three weeks into a third year.

What is three weeks . . . what is Time itself to Ivan but a succession of minutes, each one marked by the fall of a Nazi soldier.

We have helped Ivan destroy Hitler's timetable by sending planes, tanks, guns, shells, food. It is a proud thing to share even a little in Russia's triumph to this hour.

the smokeless powder in Ivan's high explosives also have a special way of measuring Time. In our plants, wholly converted to war production, we mark the passing of each hour by the thousands of gallons of high-proof alcohol flowing from our giant stills. Three weeks, three months, three years . . . it will go on flowing until the last Axis soldier has laid down either his body or his arms . . . in unconditional surrender!

ALCOHOL FOR WAR IS USED IN THE MANUFACTURE OF SYNTHETIC RUBBER, MEDICINES, NAVIGATION INSTRUMENTS, SHATTERPROOF GLASS AND MANY OTHER

PRODUCTS. EVERY SEAGRAM PLANT IN CANADA AND THE UNITED STATES IS ENGAGED 100% IN THE PRODUCTION OF HIGH-PROOF ALCOHOL FOR WAR.

Iwo years ago, we of The House of Seagram published this advertisement in tribute to the heroic Russian soldier:

Today, we are repeating this message in renewed tribute to the millions of Ivans whose 'courage, resourcefulness and fighting skill' have now freed Russian soil and beaten the enemy back to the very threshold of Berlin.
